Crimar Industrial provides industrial equipment and services throughout the world for a wide variety of applications (mining, power plants, waste treatment, refining, breweries, commercial applications and others). With over 35 years of experience in international operations, and our partnerships with manufacturing plants in China, Mexico, and the United States, we are able assist our customers by providing high quality equipment on time at very reasonable prices. We regularly provide tanks, piping systems, pumps, filter presses, ductwork, process equipment, and custom fabricated products for companies such as Siemens Water, FLSmidth, ASARCO, Phelps Dodge, Intrepid Potash, Grupo Mexico, M3 Engineering, Aker Solutions, and many other industry leaders as well as to smaller companies whose requirements are just as important to their operations.

Fiberglass fabrication:

Tanks & vessels (to 45'Ø)
Pipe and fittings
Ductwork
Scrubbers
Dampers

Grating
Process equipment
Custom fabrication
Large diameter covers
Expansion joints

Pump barges
Floating walkways
Municipal equipment
Settlers
Weirs & troughs

Steel fabrication:

Dryers
Bag houses
Hoppers
Grating

Dust Collectors
Tanks
Platwork
Fencing

Process equipment
Custom fabrication
Wear plates
Structural systems

Conveyor systems:

Conveyor belts
Pulleys

Motors
Drive wheels

Conveyor frames
Mine hoists

Process equipment:

Filter presses
Furnaces

Centrifugal pumps
Mixers

Agitators

Crushing equipment:

Ball mills (to 36'Ø)
SAG mills
Vibrating feeders

Jaw crushers
Mobile crushing systems
Raymond Mills

Vibrators
Mills
Cone crushers
