

# SCALA INFOCHANNEL 5

THE COMPLETE SOLUTION  
for Digital Signage & Display

## SCALA - THE TOP NAME IN INFORMATION DISPLAY

Since 1990, **TeL Systems** has been delivering and supporting Scala Infochannel Systems. Scala has been the preferred solution for Cable TV, Educational, Corporate, Hospital and Retail information broadcasting for many organizations and corporations. Now Scala raises the bar once again with the release of Infochannel 5. Infochannel 5 provides everything you'll need to put important information to HD or SD television displays for information broadcasting. For State-of-the-Art solutions, count on **TeL Systems**.

## Infochannel 5 and Systems - your Professional Video Partners

### TeL Systems Scala Infochannel 5 Package Includes:

- **High Performance Core i7 Advanced Workstation** w/6GB DDR3 RAM, 1000GB RAID Storage Disk, 16X DVD-Burner, 6 USB 2.0 ports, 1000Base Gigabit Ethernet port, 1000MB High Performance Dual DVI NVidia Graphics Card, 24 Bit Audio Card, Microsoft Windows XP Pro or Vista O/S, Optical Mouse and Keyboard.
- **Scala IC5 Designer Software** - IC5 Designer provides fast and intuitive design tools allowing users to create beautiful multi-layered graphic compositions that attract viewer attention. Incorporate graphics or photos in BMP, JPEG, PNG, TIF, GIF and other image formats. Imports MPEG-2, MPEG-4, AVI, Flash and WMV video formats. Imports MP3 and WAVE audio.
- **Scala IC5 Player** - The Player drives HD or SD screens 24 hours a day, 7 days a week, providing high quality playback for slides, text, graphics and video downloaded from the Content Manager. This configuration allows new messages and program material created in either Content Manager or Scala Designer to appear without interruption of message payout. In addition, each Scala player can output 2 simultaneous channels (SD or HD) with independent control for each channel.
- **Scala IC5 Content Manager** - Content Manager is the Server portion of Infochannel. It tracks all operations & transactions on the network allowing users to access, browse and upload media (via Username and Password) to the media library where it is then available for viewing and message creation. Users can access graphics and templates, create messages, preview messages, schedule slides and messages, then distribute media and messages to the remote Players for automated and unattended payout. Access and browse Infochannel Templates that are stored on the Server, then populate those templates with your own custom messages, graphics and videos.
- **VGA, DVI or HDMI Output** - High Quality Video Output from the Scala IC5 Player Unit. Composite/Y/C NTSC also available.
- **24" Flat Panel Widescreen LCD Computer Monitor** - Premium High Resolution Monitor w/ thin bezel for IC5 Designer.
- **Audio, Video and Computer Cables** - all the cables you'll need for AV connections from your Scala IC5 System!
- **220 TrueType Fonts Pak for Windows XP** - you'll have all the typefaces needed for every type of project!
- **Delivery and On-Site Installation** - We install it for you - at your location. Includes full setup and testing at your facility.
- **Scala Authorized On-Site Training** - Learn from the leading Scala Reseller . . . TeL Systems! 2 Days of On-Site Training
- **TeL Systems 1 Year On-Site Service Warranty** - Covers entire system for 1 year from delivery date.

TeL Systems also carries a wide variety of cameras, VCRs, VTRs, Video Monitors, Digital Photo Cameras, Video Editing Systems, DVD Creation Systems and many other products from leading manufacturers. Please contact TeL Systems for more information.
