Molybdenum Specialists

2011

F&A Machine is equipped to handle your short to medium run production needs and meet your exceeding quality standards. Our shop features a Southwestern Industries ProtoTRAK LPM 4-axis vertical milling center, the latest video metrology equipment from Starrett, a host of other CNC and manual machines, and a knowledgeable and dedicated staff.

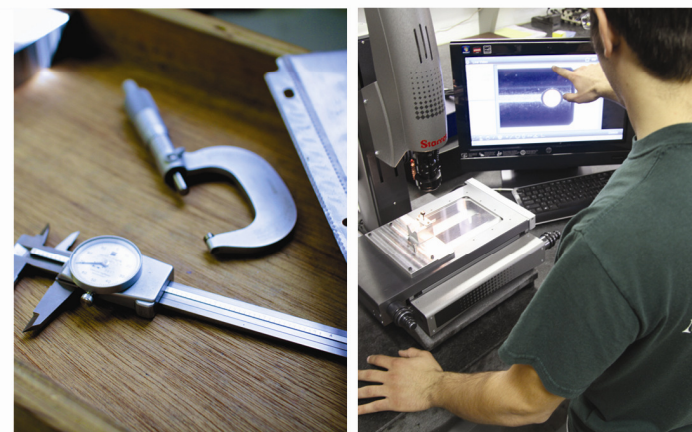

With over 30 years of experience with **molybdenum**, we are the shop to handle your production needs.

Materials we have worked with include...

- Molybdenum
 - TZM
 - Titanium
 - Stainless Steel
 - Silver
 - Copper
 - Bronze
 - Plastics
 - Aluminum
 - Steel
 - Cast Iron
- And many more.

Nobody is more experienced and qualified to produce your high quality molybdenum products.

At F&A Machine our reputation for delivering precise, high quality products with fast turn-around has given us the privilege of serving many industries, including...

- Laser Diode
 - Semiconductor
 - Solar
 - Aerospace
 - Printing
 - Medical
- And many more.

Equipment we have to get the job done right includes:

- Southwestern Industries ProtoTRAK LPM 4-axis CNC vertical machining center *FIRST ON THE EAST COAST*
- Bridgeport Series II Special Mill with Southwestern Industries TRAK CNC 2 3-axis CNC
- Clausing Kondia Mill with Acer inverter drive head and Southwestern Industries ProtoTRAK MX3 3-axis CNC
- Acer E-Mill inverter drive mill with Southwestern Industries ProtoTRAK EMX 2-axis CNC
- Bridgeport Series I with Southwestern Industries ProtoTRAK MX2 2-axis CNC
- 2 Acer E-Mills with inverter drive
- 2 Clausing Kondia mills
- Tree mill
- Hardinge horizontal mill
- 2 Southwestern TRAK 18"x40" ProtoTRAK SLX CNC lathes
- 2 Hwacheon 18"x40" lathes
- Clausing Colechester 15"x50" lathe
- Okk Ramo 17"x40" lathe
- 3 Hardinge lathes with Omni Turn CNC
- 2 Hardinge precision tool room lathes
- Starrett Galileo EZ200 video inspection system
- Browne & Sharpe Masterview 14" optical comparator
- 2 DoAll 16" vertical band saws
- Boyar Schultz Surface grinder
