MULTIPLE APPLICATIONS

STANLEY

**Vidmar**

# PRE-CONFIGURED CABINETS

## Stanley Vidmar Storage Solutions

A cabinet storage system from Stanley® Vidmar® reduces the amount of space you need for storage without limiting what you need to store.

### Use Less Space To Store More

A Stanley® Vidmar® cabinet consolidates storage. Two Stanley® Vidmar® cabinets can store inventory from five shelf sections, freeing up floor space for more productive and profitable activities.

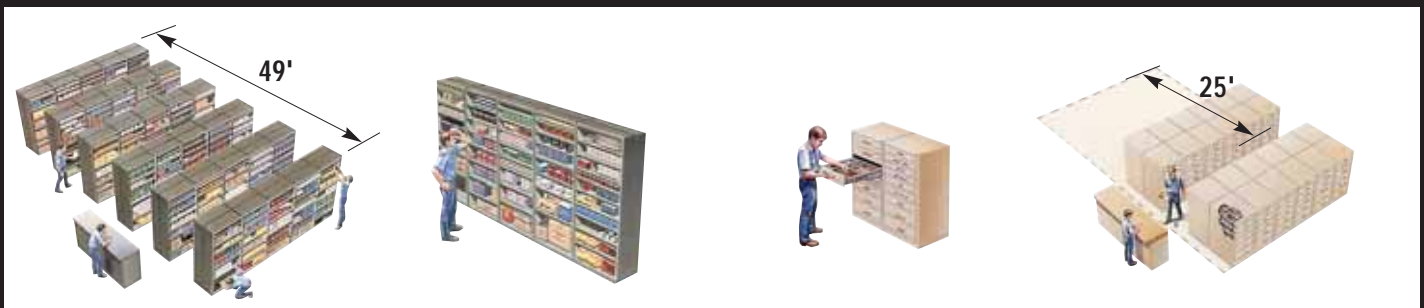

### Get Organized

Drawer storage gives every item its own specific, instantly located place. With everything organized, taking inventory is easy. You can cut retrieval time and eliminate obsolete inventory. And you'll keep everything secure and protected from dust and dirt. Stanley® Vidmar® cabinets arrive with their drawer interiors already installed.

### We Can Grow With You

As your inventory and storage requirements change, Stanley® Vidmar® storage systems can change with you. We can help increase your storage capacity while helping improve efficiency. Contact your local Vidmar® Sales Engineer for an on-site evaluation.

## The flexible solution that grows as your storage needs expand

### The Problem

#### Capacity

Low-density, open-shelf storage uses too much space, leaving no room for growth. You're storing air.

#### Lost Inventory

Your computer says the part is in stock, but it is impossible to locate.

#### Slow Retrieval

Poor organization and lack of inventory controls force service personnel and customers to wait and wait for parts.

#### Dirty Parts

Dirty parts irritate customers and make it impossible to take advantage of the manufacturer's parts-return program.

### The Cause

#### Inefficient Storage Equipment

Open-shelf storage can waste as much as 50% of your storage space.

#### No Control

During search and retrieval, many items are pushed out of designated storage locations.

#### Wasted Effort

Traditional storage equipment forces personnel to stretch, stoop, search, and strain to reach hard-to-access locations.

#### Open To Exposure

With open shelving, dust and dirt settle on stored parts, packaging is torn, and parts are damaged.

### The Solution

#### High-Density Storage

Convert small-parts storage to high-density storage in drawers to utilize every square inch of available space.

#### Individual Location

Drawers provide an individual storage compartment for each part number in your inventory.

#### Easy Access

Stanley® Vidmar® storage cabinets put all stored parts within easy reach and full view.

#### Protection

Enclosed storage equipment protects inventory from dust, dirt, damage, and loss.

### The Benefit

#### Capacity

Helps increase your storage capacity without expanding your parts department.

#### Each Part Has An Address

Because each part number has a specific compartment, it is always where it should be.

#### End Wasted Time

Fast, effortless retrieval means less waiting for customers and service personnel.

#### Happier Customers

Clean parts satisfy customers and make it easy to take advantage of the manufacturer's parts-return program.

## The Most Popular Storage Cabinet Configurations

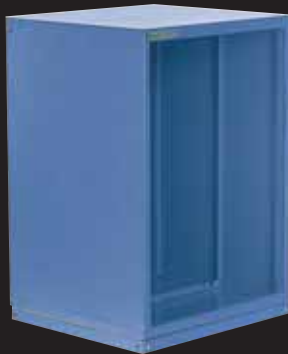

Four cabinet heights, 15 drawer heights, and 30 of the most popular drawer interiors combine to create some of the most popular and versatile storage drawer cabinet configurations in use today. Stanley® Vidmar® cabinets, can help you increase storage capacity. Designed with the modularity and flexibility needed in changing business environments, Vidmar® storage

drawer cabinets allow for storage growth and expansion needs. Vidmar cabinets can be stacked six high or in multi-level mezzanine configurations, saving valuable floor space by making use of wasted vertical air space. Or use Stanley® Vidmar® cabinets as the building blocks for workstations and benching configurations with a selection of accessories such as risers, bench legs, work surfaces and lights. Consult with your local Vidmar® Sales Engineer.

**Model 340**  
**Eye Level Height**

59 in. (1499 mm) high  
30 in. (762 mm) wide  
27-3/4 in. (705 mm) deep

**Model 245**  
**Counter Height**

44 in. (1118 mm) high  
30 in. (762 mm) wide  
27-3/4 in. (705 mm) deep

**Model 200**  
**Stand-Up Height**

37 in. (940 mm) high

**Bench and Workstation Height**

33 in. (838 mm) high  
30 in. (762 mm) wide  
27-3/4 in. (705 mm) deep

## Standard Drawer Features

Drawer sizes are designed around average human reach (25-1/8 in. square [638 mm]) for easy access. Drawer heights range from 2-1/4 to 13-1/4 in. (57 to 337 mm) usable height, holding up to 400 lbs (181 kg). The drawers glide easily on a ball-bearing carriage system which is guaranteed against failure. Stanley® Vidmar® drawers are interchangeable with other drawers in cabinet housings of the same style. Each drawer has slotted walls for partitions and dividers, providing infinite configurations. For quick, easy-to-read identification of contents, each drawer pull has a large label and plastic shield. A variety of label holders are available to identify individual compartments within the drawer.

| MODEL# | USABLE HEIGHT |          |
|--------|---------------|----------|
|        | IN.           | (MM)     |
| 20     | 2-1/4 in.     | (57 mm)  |
| 25     | 3 in.         | (76 mm)  |
| 30     | 3-7/8 in.     | (98 mm)  |
| 35     | 4-5/8 in.     | (117 mm) |
| 40     | 5-3/8 in.     | (137 mm) |
| 45     | 6-1/4 in.     | (159 mm) |
| 50     | 7 in.         | (178 mm) |
| 55     | 7-3/4 in.     | (197 mm) |
| 60     | 8-1/2 in.     | (216 mm) |
| 65     | 9-3/8 in.     | (240 mm) |
| 70     | 10-1/8 in.    | (257 mm) |
| 75     | 10-7/8 in.    | (276 mm) |
| 80     | 11-3/4 in.    | (292 mm) |
| 85     | 12-1/2 in.    | (318 mm) |
| 90     | 13-1/4 in.    | (337 mm) |

## Accessories

All cabinets can be fitted with a single key lock system and individual drawer locks can also be supplied.

Other cabinet and drawer accessories are available such as overheads and drawer dividers. Consult with your local Vidmar® Sales Engineer.

# Paint Finish

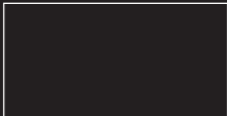

All Stanley® Vidmar® cabinets, drawers, accessories and STAK System® Storage are painted with an epoxy polyester-based powder coating.

This durable coating provides:

- An improved durability to surfaces (salt spray and scratch tests.)
- Improved consistency in color.

This environmentally-friendly paint is available in ten standard colors at no additional charge. (Non-standard and custom colors are available with additional charges added on a per-order basis.)

# PRE-CONFIGURED CABINETS

## Drawer Interiors

### Standard Loading Diagrams

These 28 proven drawer interiors are featured in the standard pre-configured cabinets shown on the previous pages. Factory installation of partitions and dividers is included for all loading diagrams shown in this catalog. If your application requires drawer arrangements other than these call 800-523-9462.

### Keep Everything Organized and in Reach

The ability to see a drawer's entire contents in one glance, along with clear labeling and good organization, permits rapid inventory checks and eliminates the possibility of running out of stock without realizing it.
