

About MCF Environmental Services Inc.

MCF was founded in 1989 with the goal of offering environmentally safe and cost effective solutions for managing hazardous and non-hazardous industrial and commercial waste. Our comprehensive waste management program serves over 6,000 generators of various waste materials with additional capabilities including:

- Waste Transportation & Disposal Services
- Industrial Services
- Site Remediation Services
- Vacuum Truck Services
- Roll-Off Container Services
- Lab Pack Services
- Dry Cleaning Waste Disposal Services
- Bio-Medical Waste Solutions
- Pharmaceutical Waste Solutions
- Lamp, Battery & E-Waste Recycling
- Paper Shredding
- Experienced route drivers with annual training on D.O.T. and EPA hazardous materials and hazardous waste transportation regulations
- Customized computer operating system for waste tracking, document generation, routing and scheduling for service optimization
- Comprehensive commercial and pollution legal liability insurance coverage
- Waste disposal services managed by our fleet of straight trucks, over-the-road tractor-trailers equipped with lift gates, roll-off containers and bulk transportation to better serve you

For the convenience of our customers we provide route service and over-the-road transporters that serve 22 states. We are fully permitted to transport virtually all types of waste materials and we maintain commercial and pollution legal liability insurance coverage for all materials in our possession.

Non-Hazardous Solid Waste Facility

MCF Environmental Services is a fully permitted non-hazardous industrial waste facility with the capability of receiving, bulking and solidifying non-hazardous liquid, sludge and solid waste materials.

Our 12,000 sq./ft. facility was designed to handle a wide range of waste materials and container types in our enclosed receiving and processing area to ensure safety and the protection of our environment. Our facility operates under the State of Georgia Solid Waste Permit Number 031-041P.

Solid Waste Facility

- Profiling of Waste Streams
- Manifesting & Labeling
- Enclosed Loading & Processing Area
- \$5 Million Insurance Coverage
- Fully Licensed & Permitted
- DRMS Approved

Industries Served

- Manufacturing Facilities
- Paint Manufacturers
- Latex Manufacturers
- Adhesive Manufacturers
- Chemical Manufacturers
- Food Industry
- Trucking Companies
- Universities
- Hospitals
- Carwash Facilities
- Municipal Facilities

Non-Hazardous Waste Accepted

- | | |
|---------------|----------------------|
| • Latex | • Coolants |
| • Oil & Water | • Absorbents |
| • Inks | • Contaminated Soil |
| • Glue | • Off-Spec Products |
| • Resins | • Food Grade Waste |
| • Mop H2O | • Sand Blast Grit |
| • Adhesives | • Carwash Pit Sludge |

Hazardous/Non-Hazardous Waste Transportation & Disposal Services

MCF Environmental Services maintains a fleet of specialized vehicles for the transportation and handling of all types of hazardous and non-hazardous waste to our third-party network of Permitted treatment, storage and disposal facilities. Each vehicle is equipped with on-board GPS tracking systems for scheduling and managing your waste while in-transit. With our straight trucks with 26' boxes and lift gates, OTR 53' dry vans, Roll-off units with dry bulk or liquid sludge boxes, semi-dump trailers and vacuum tankers we can handle any load from a single drum to full truck loads as well as bulk dry or liquid shipments.

Waste management and disposal options include recycling, fuels blending, incineration, neutralization, and landfill. Regulated Non-Hazardous industrial and commercial waste is managed for consolidation or solidification at the MCF Environmental Services Permitted Solid Waste handling Facility located in Ellenwood, Georgia operating under Permit Number 031-041P.

Waste Process Methods

- **Fuel Blending/Energy Recovery**

Blending of high BTU/Flammable waste for energy in cement kilns

- **Incineration RCRA/non RCRA**

Complete destruction of Hazardous or Non-hazardous Waste-to-Energy

- **Landfill Disposal RCRA/non RCRA**

Solids disposal of waste into Subtitle C or D Landfills

- **Recycling**

Distillation of Solvents/Solids plastic or metals for reuse

- **Solidification**

Non-hazardous materials treatment prior to Subtitle D Landfill

- **Stabilization/Fixation**

Hazardous materials treatment prior to Subtitle C Landfill

- **Waste Water Treatment**

Treatment of contaminated waters prior to discharge into POTW

Waste Handled

- Flammables
- Corrosives
- D-Listed
- F-Listed
- Non-Hazardous
- Acid/Caustic Sludge
- Off-Spec Materials
- Fuel Tank Residuals
- Household Hazardous Waste
- Infectious Waste
- Oil Contaminated Soil
- PCB Contamination
- Processing Waste
- Spill Cleanup/Waste Streams
- Waste Water

Hazardous/Non-Hazardous Waste Transportation & Disposal Services

Our experienced team of customer service and sales professionals will assist you throughout the process of managing your waste with waste characterization, profiling, approvals, preparation of shipping documents and labels and scheduling, tracking and records maintenance for comprehensive reporting purposes. We will recommend best management practices for your waste and guide you in effective waste minimization programs. We will manage your waste so you can manage your business.

MCF Environmental also manages a 10 day hazardous waste transfer facility to help with Less-Than-Truckload (LTL) shipments. Our route trucks currently service our customers on regularly scheduled routes to help generators plan their shipping frequency to help maintain compliance.

Waste Management Services

- Hazardous & Non-Hazardous Disposal
- Vacuum Truck Services
- Hazardous Waste Determination
- Sampling & Waste Analysis
- Waste Characterization & Classification
- Document Preparation
- Contract Scheduled Pick Up Services
- GPS Tracking of Waste
- Document and Record Keeping
- Waste Consolidation & Re-Packing
- Turn Key Solutions

Transportation Methods

- Trucks are equipped with GPS Tracking
- 48' & 53' Trailers
- 26' Straight Trucks
- Roll-Off Container Trucks
- Vacuum Tanker
- Dump Trailer

Industries Served

- Chemical
- Construction
- Energy: Oil & Gas
- Industrial Manufacturing
- Assembly, Automotive, Radiator
- Paint
- Printer
- Steel

Industrial Services

Roll-Off Container Services

Our roll-off container services include collection, transportation, storage, and disposal of different types of hazardous and non-hazardous waste materials. We dispose filter sludge, pit waste, contaminated soil, metals, plus several other waste products from construction sites and industries. Equipped with several 20 and 30-yard containers, we are capable of handling pick-ups/drops at your convenience.

Vacuum Truck Services

Car wash stations, construction sites, manufacturing facilities, and several other utilities use our vacuum truck services for waste management. Being DOT-trained, our drivers ensure safe transportation of any type of flammable product, diesel, contaminated oil, sludge, or chrome waste.

Site Remediation

We provide complete site remediation services, from excavation of contaminated soil to physical and chemical waste treatment. Our soil remediation and water treatment services are widely used by manufacturing facilities, gas/oil refineries, construction units, and abandoned property sites. These services are offered throughout the United States, in areas such as Alabama, Georgia, Mississippi, Tennessee, Florida, North & South Carolina.

General Capabilities

- Waste Transportation
- Recycling
- Bulk Item Removal
- Storage
- Hazardous & Non-hazardous Disposal

Industries Served

- Manufacturing Facilities
- Paint Manufacturers
- Chemical Manufacturers
- Food Industry
- Trucking Companies
- Universities/Hospitals
- Carwash Facilities
- Municipal Facilities
- Abandoned Properties
- Construction
- Energy (Gas/Oil Refineries)

Waste Management Services

- Non-hazardous transportation & disposal
- Hazardous transportation & disposal
- Waste Characterization & Classification
- Document Preparation
- GPS Tracking of Waste
- Document and Record Keeping
- Turn Key Solutions

Waste Process Methods

- Bulking
- Solidification
- Landfill Disposal
- Incineration
- Recycling
- Stabilization/Fixation
- Waste Water Treatment

Accepted Materials

- Contaminated Soil
- Dry Goods
- Filter Sludge
- Metals
- Obsolete Product Waste
- Pit Waste Sludge
- Off-Spec Materials
- Waste Grease

Transportation Methods

- Trucks are equipped with GPS Tracking
- 48' & 53' Trailers
- 26' Straight Trucks
- Roll-Off Container Trucks
- Vacuum Tanker
- Dump Trailer

Lab Pack Services

What is a Lab Pack?

If you work for a laboratory, school, medical facility, factory, warehouse or any other operation that uses chemicals, solvents, reagents, paints, thinners, dyes, inks or cleaning compounds that might have expired or are no longer needed, then you need a lab pack. These materials are considered hazardous waste and criminal penalties may apply if you throw them in the trash or pour them down the drain, and could potentially be dangerous if mixed together.

What Can MCF do for you?

- Identify, inventory, segregate and categorize all materials
- Repackage into DOT approved containers with absorbents
- Label containers with inventory list for proper shipping
- Provide ALL paperwork including manifest, inventory sheet, profile, MSDS and arrange for transportation & disposal

Examples

- Chemicals
- Solvents
- Acids, Bases
- Paints
- Inks
- Gas Cylinders
- Aerosol Cans
- Pool Cleaning Supplies
- Degreasers
- Unknowns

Industries Served

- Manufacturing
- Healthcare
- Laboratories
- Education
- Government
- Industrial

The MCF Advantage

- \$5 Million Insurance Coverage
- Over 20 years experience in waste consolidation, transportation and disposal

Transportation and Disposal of Regulated Medical Waste

Pharmaceutical, Chemotherapy & facility operations waste disposal services

Identification of toxic pharmaceutical and non-regulated unused and expired drugs for incineration

Turnkey solutions to your sensitive document destruction needs

Recycling services for various fluorescent bulbs, batteries and computers

We provide regularly scheduled service calls to customers in 22 states.
