

“Serving Our Customers since 1975”

SPILL RESPONSE CLEAN-UP CONTAINMENT

WYK Sorbents, LLC started out as Upright Inc. a company well known in the food and meat processing industry, where our anti-slip/absorbents have helped protect workers since 1967. The product line expanded in 1987 as Upright entered the Industrial market. Twenty years of experience was put into the development of the new full-line offering of WYK Universal (Chemical) Sorbents, WYK Oil Selective Sorbents and WYK Facility Maintenance Sorbents. In the fall of 2005, Upright Inc was sold and the company's name changed to WYK Sorbents, LLC.

Whether your concern is hazardous and aggressive fluids, oils or water, WYK Sorbents will meet or exceed your everyday needs, as well as your challenging and critical applications.

WYK Sorbents, LLC

sets tough quality control and customer service standards.

The company has always had superior service focus.

We adhere to our motto ETDBW (Easy To Do Business With.)

SUPER SORBENT

The power of *SUPER SORBENT* instantly soaks up liquids, which reduces clean up time and limits liability exposure.

- Minimizes slip/fall injuries
- Eliminates fire hazards
- Absorbs and solidifies liquids
- No hazardous ingredients
- Certified free of respirable silica

- For use on oils, acids (except hydrofluoric acid or HF compounds), bases, chemicals, and toxic liquids
- National Sanitation Foundation listed
- Exceeds EPA landfill rules; passes Paint Filter & TCLP tests
- Non-corrosive, non-toxic, and non-flammable
- Non-biodegradable and inert

WYK FRESH

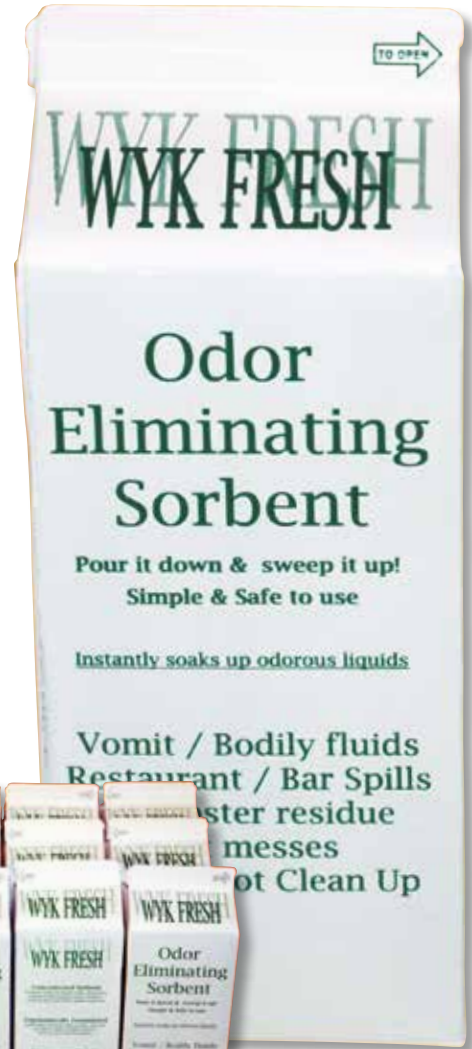

ODOR ELIMINATING SORBENT

Safe and easy to use, WYK FRESH quickly and easily absorbs fluid accidents and other odorous liquids.

- Convenient shaker carton
- Absorbs up to 10 times its own weight
- Environmentally safe
- Fast acting on vomitus liquids and bodily fluids
- Works on all surfaces

Ideally suited for use in:

- schools
- school buses
- play areas
- restrooms
- medical facilities
- nursing homes
- retail stores
- amusement parks
- theaters
- restaurants and bars
- churches
- veterinary clinics
- airports and airplanes
- sporting arenas
- transportation vehicles
- day cares/preschools

WYK FRESH PILLOWS & SOCKS

Place in bottom of trash receptacle to absorb liquids and odors. Leaves your dumpster or receptacle clean, dry and smelling fresh. Also try under your sink to absorb moisture and freshen up the aroma. Absorbs over 1/2 gal. of liquid!

500 Series Products

ANTI-SLIP SAFETY SORBENT

Providing traction on wet, oily and icy surfaces, **SAFETY SORBENT** quickly and thoroughly cleans up all liquids.

- Leaves surfaces clean and 100% dry
 - Absorbs up to 4 times more liquid than clay products
 - Provides traction on slippery surfaces
 - Absorbs and solidifies liquids
 - No slippery residue
 - Certified free of respirable silica
-
- Exceeds EPA landfill rules and regulations
 - Retains and solidifies liquids and passes Paint Filter and TCLP test
 - Solidified liquids will not leach back out of **SAFETY SORBENT**
 - Non-biodegradable and inert mineral

AN3000 Series Products

ACIDSAFE

ACID NEUTRALIZING SORBENT*

A fast, safe and efficient method to neutralize and absorb acid spills, ACIDSAFE contains an indicator that provides a visible color change to indicate complete neutralization.

- Environmentally friendly
 - Safely neutralizes acids* except hydrofluoric acid (HF)
 - Color change indicator
 - Absorbs and solidifies liquids
 - No hazardous ingredients
 - Easy to use and fast clean- up
-
- Ideal for fork lift battery charging stations, telephone cell sites, telephone central offices and other locations with acid spill exposure
 - Safety risk for personal and the environment are minimized

Helps you meets regulatory requirements: OSHA 1926.441 & 1910.178

STOCK NO.	DESCRIPTION	SHIPPING WT.	ABSORBS UP TO

AN3300 Series Products

ACIDSAFE BATTERY WASH

INDICATING NEUTRALIZER SPRAY

Benefits of a clean battery are:

- Extended battery life
- Reduction in charge times
- Improve battery handling safety

Ready to use spray bottle cleans batteries in three easy steps:

- 1.) Spray on battery and terminals. If acid is present it will turn yellow.
- 2.) Scrub corroded areas with a stiff non-sparking poly brush.
- 3.) When spray turns a reddish-purple color, rinse off with water.

- Environmentally friendly • No hazardous ingredients • No mixing necessary

OSHA & UFC compliant

STOCK NO.	DESCRIPTION	CASE QTY.	SHIPPING WT.

ACIDSAFE

ACID NEUTRALIZING INDICATING SORBENT SOCKS AND PILLOWS

AN600

ACIDSAFE Neutralizing Indicating Sorbent Sock

AN612

ACIDSAFE Neutralizing Indicating Sorbent Pillow

USED TO SOLIDIFY AND NEUTRALIZE BATTERY ACIDS UNDER BATTERY CHARGING STANDS AND EQUIPMENT.

These socks and pillows will neutralize and the inside compound provides a color change to let you know neutralization is complete. Safely takes care of drips, boil-overs and spills. **ACIDSAFE** Neutralizers are also available in spill kits, granular and liquid form.

- *Provides a safe and effective way to keep battery drip pans neat, safe and clean*
- *Instantly neutralizes and solidifies battery acid boil overs, drip, leaks and spills*
- *No messy loose “clay” to cleanup and track around, simply pick up and dispose of used pillows*
- *Easy identification and replacement of pillows that have reached capacity*
- *Economically designed to save pillows, only replace pillows in areas where drips occurred*
- *Protects your drip pans from corrosion and costly replacement*
- *Two sizes available to efficiently cover you’re charging stand and equipment drip pans*

COLOR INDICATING SORBENT

Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid.

When mixture turns purple a second time it has been neutralized to a safe PH range.

ACIDSAFE

TECHNICAL SPECIFICATIONS:

ACIDSAFE NEUTRALIZING INDICATING SORBENT SOCKS AND PILLOWS

HELPS YOU COMPLY WITH:

- OSHA Regulations 1926.441 – Battery Room and Charging Areas
- OSHA Regulations 1910.178 – Changing and Charging Batteries
- OSHA Regulations 29 CFR 1910.120 – Availability of salvage drums and absorbents

ACIDSAFE sorbent socks and pillows instantly pull the acid drips into a matrix that provides a buffered neutralization and color indication as it's working. When sock or pillow is saturated simply pick up and replace with a new **ACIDSAFE** sock or pillow. No mess, professional looking maintenance and protection for your battery recharge drip pans.

"Quilted" for improved strength and even neutralizer distribution. This improves the life of the sock or pillow and assures efficient usage of the neutralizer.

DRIES THE SPILL! **ACIDSAFE** completely dries up the acid and surface below allowing for easy and safe pick up after neutralization. This product completely eliminates the sticky mess associated with acid neutralization with sodium carbonate neutralizers. It leaves a dry, safe floor when your finished!

PRODUCT OFFERING:

Stock Number	Description	Case Quantity	Shipping Weight	Cases Size
AN600	ACIDSAFE 4 in. x 48 in. x 1 in. Neutralizing Sock	8	15 lbs.	13 in. x 13 in. x 8 in.
AN612	ACIDSAFE 12 in. x 12 in. Neutralizing Pillow	8	15 lbs.	13 in. x 13 in. x 8 in.

CAUTION:

Do not use on hydrofluoric acid (HF) or HF Compounds
 Only qualified, trained personnel should attempt the cleanup of a hazardous spill.
 Wear appropriate personal protective equipment (PPE). Product may cause irritation to the eyes and skin. Heat is generated when used on strong acids.
 For eye contact, flush eyes with water, seek medical attention if necessary. For skin contact, wash with soap and water. For inhalation of vapor, move to fresh air and seek medical attention if necessary.
 Disposal must be in compliance with local, state and federal regulation.
Produced in USA

Signal Word: Warning
Hazard Statement: Causes serious eye irritation if outside skin is torn.
HNOC: Do Not Use on (HF) hydrofluoric acid or compounds containing (hf) Contact with (hf) will produce highly toxic tetrafluoride gas

NEUTRALIZING, INDICATING AND SOLIDIFYING SORBENT FOR ALL LIQUIDS

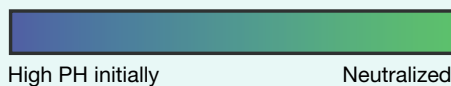

NEUTRALIZES, SOLIDIFIES AND INDICATES SAFE PH RANGE IN ONE EASY STEP!

UNS is the most efficient method to cleanup Battery Acids and Bases, even (HF) hydrofluoric acid! Safe for use on unknown liquids.

- PH Color indicator shows when a safe PH has been achieved
- Solidifiers totally encapsulate the liquids preventing further mitigation or reacting with other liquids
- Buffered formula prevents “over-dosing” to another hazardous PH level
- Non toxic to humans, animals, marine or plant life

COLOR INDICATING SORBENT

Color indication initially indicates the strength (PH) of the acid: Red indicates a low PH (Acidic) and turns yellow when neutralized, Blue indicates a high PH (Basic) and turns green when neutralized.

IDEAL FOR:

- Battery recharging areas
- Material handling maintenance shops
- Communications centers
- Cell towers
- Any place lead acid batteries are stored, charged, repaired or replaced

NEUTRALIZING, INDICATING AND SOLIDIFYING SORBENT FOR ALL LIQUIDS

TECHNICAL SPECIFICATIONS:

UNIVERSAL NEUTRALIZING SORBENT

HELPS YOU COMPLY WITH:

- OSHA Regulations 1926.441 – Battery Room & Charging Areas
- OSHA Regulations 1910.178 – Changing and Charging Batteries
- OSHA Regulations 29 CFR 1910.120 – Availability of salvage drums and absorbents

Amphoteric molecules power **UNS** to neutralize everything.

SAFE TO USE! Reactions with aqueous solutions and acids will generate some heat depending on the strength of the solution. Reactions with bases generate little or no heat. As a general rule of thumb, apply the same amount of weight as the spill (1lb. to 1lb.). Example: 98% sulfuric acid is 14.97 lbs. per gallon, apply 15 lbs. of **UNS** or 1 to 1 ratio. This rule of thumb varies based on the specific chemical and its strength.

COLOR INDICATION OF PH Keep adding **UNS** until no free liquids are present and the color indicates either blue or yellow/green, verifying the solution is neutral.

Cannot be misapplied—no identification is required.

Reduces splattering, heat and gas vapors associated with absorption and neutralization.

Drug Task Forces use **UNS** to secure unknown liquids rendering them harmless, particularly those used to make methamphetamine.

PRODUCT OFFERING:

Stock Number	Description	Case Pack	Shipping Weight	Cases per Pallet
UNS12	UNS 1/2 gal. shaker carton, 3 lbs. each	12	38 lbs.	60
UNS4	UNS 1/2 gal. shaker carton, 3 lbs. each	4	14 lbs.	100
UNS10	UNS 10 lb. multi-wall kraft bag with liner	1	11 lbs.	120
UNS25	UNS 25 lb. multi-wall kraft bag with liner	1	27 lbs.	60
UNS5	UNS 25 lb. flip top dispenser pail	1	27 lbs.	60

CAUTION:

Only qualified, trained personnel should attempt the cleanup of a hazardous spill.

Wear appropriate personal protective equipment (PPE). Product may cause irritation to the eyes and skin. Some heat may be generated when used on strong acids and bases.

For eye contact, flush eyes with water, seek medical attention if necessary. For skin contact, wash with soap and water. For inhalation of vapor, move to fresh air and seek medical attention if necessary.

Disposal must be in compliance with local, state, federal regulations.

Produced in USA

NEUTRALIZING, INDICATING AND SOLIDIFYING SORBENT KITS FOR ALL LIQUIDS

Haz Mat teams both industrial and public face unknown spilled liquids everyday—some hazardous and some as harmless as water. **UNS Spill Kits** provide a low cost solution to this scenario.

UNS may be directly applied to unknown liquid spills and will immediately:

- Soak up the liquid instantly
- Provide an initial color change indication (help identify liquid)
- Neutralize and color indicate the liquid is neutralized to a safe PH

* No guesswork, use on all liquids

* PPE, Sorbent, tools, pictorial instructions, self sealing disposal bags included in every UNS kit

COLOR INDICATING SORBENT

Color indication initially indicates the strength (PH) of the acid: Red indicates a low PH (Acidic) and turns yellow when neutralized, Blue indicates a high PH (Basic) and turns green when neutralized.

IDEAL FOR:

- Unknown Hazardous Material Liquid Cleanup
- Fire, Police, Ambulance
- Laboratory Chemical Cleanup
- Response Teams/ First Responders
- Commercial and Industrial Cleanup

BLOOD / OPIM CLEANUP

HELPS YOU MEET OSHA 1910.1030

FLUID ENCAPSULATING SORBENT FOR BLOOD AND ALL WATER-BASED FLUIDS

BODILY FLUID CLEANUP MADE SAFE AND SIMPLE!

This uniquely formulated solidifier has the power to solidify while eliminating malodors. Super concentrated - absorbs up to 150 times it's own weight in aqueous based fluids

The **Fluidloc™** sorbent makes cleanup fast and safe and easy.

Fluidloc™ is non-reactive, non-flammable, non-toxic, inhibits vaporization and associated malodors and is completely safe to use.

FLUIDLOC™ FEATURES:

- ***Solidifies bodily fluids instantly***
- ***Formulated for easy and fast pick up***

BLOOD AND OPIM FLUIDS

Instantly solidify and clean up all types of bodily fluid excretions as well as OPIM (other potentially infectious materials) fluids and materials:

Blood	Saliva
Body fluids	Tissue/organs
Amniotic fluid	Cultures
Peritoneal fluid	Vomit
Pericardial fluid	Urine
Pleural fluid	Formaldehyde
Cerebrospinal fluid	Glutaraldehyde

FLUIDLOC™

Be proactive in protecting your employees and customers from potentially infectious fluids.

BLOOD / OPIM CLEANUP

HELPS YOU MEET OSHA 1910.1030

FLUIDLOC™

FLUID ENCAPSULATING SORBENT FOR BLOOD AND ALL WATER-BASED FLUIDS

USAGE

APPLICATIONS:

- Restaurants/bars
- Schools/universities
- Pet messes
- Stadium/concert halls
- Public transportation
- Convention centers
- Retail centers
- Fire/police departments
- Swimming pool
- Recreational areas
- Service stations
- Department stores
- Airports/airlines
- Hotels
- School buses
- Bus/train stations
- Hospitals
- Urgent care centers
- Office/cafeterias
- Veterinary clinics
- Manufacturing businesses
- Dental offices

STOCK NUMBER	DESCRIPTION	SHIPPING WEIGHT

600 Series Products

UNIVERSAL/CHEMICAL SOCKS AND PILLOWS

Lightweight and easy to handle, WYK chemical socks and pillows are ideal for use on unknown liquids.

- High capacity—absorbs up to 14 times its own weight so you use less and have less waste
- Instant sorption—begins working immediately to save labor and reduce clean-up time
- Retains and solidifies liquids and passes Paint Filter and TCLP Tests
- Reduces fire hazard—inhibits vaporization by reducing fumes

- For use on petroleum based liquids, solvents, coolants, as well as many other liquids
- Eliminates chemical compatibility errors when emergencies occur
- Non-biodegradable and inert

Weights will vary dependant upon the density of natural minerals.

Custom sizes are available.

Not for use on hydrofluoric acid or HF compounds

4000 Series Products

UNIVERSAL POLYPROPYLENE

HIGHLY ABSORBENT PADS, ROLLS, BOOM, DRUM TOPS, SOCKS & PILLOWS

- 100% polypropylene instantly starts absorbing liquids on contact
- Universal, absorbing water, oils and everything in between.
- Cleans up oils, acids, caustics, solvents, urine/bodily fluids, flammable and toxic liquids

HI-CAPACITY UNIVERSAL PADS & ROLLS

- Highly absorbent polypropylene with spun bond cover stock outside on one side and one side without for traction
- Heat sealed for extra strength

UNIVERSAL BOOMS

- Contains large spill on land
- Sock in net booms link to form absorbent barrier together
- Nylon mesh covering full length rope provides strength during deployment/retrieval

UNIVERSAL DRUM TOP PADS

- Pre-cut to fit 55 gallon drums
- Prevents pump drips from reaching the floor
- Keeps drum tops and storage areas clean

UNIVERSAL GREY SOCKS

- Use whenever you have a variety of spills
- Socks easily mold to any shape
- Comes in 4 ft. and 12 ft. lengths

UNIVERSAL PILLOWS

- Use when high capacity and speed is needed
- Pulls liquids from the floor like a sock
- Catches leaks like a pan and absorbs spills
