M14 WIRE EDM OPTICAL MOUNT*, P/N 2006, NSN 5855-01-506-5750

Wire EDM manufacturing process assures extremely long service life.

The new standard US Government Issue M14 mount now seeing wide-spread combat use, provides a stabile, three point secure base for mounting large objective scopes. Wire Electro Discharge Machine (EDM) manufacturing yields a product totally devoid of stress, thereby guaranteeing an extremely long service life. Easily clamps to charger guide dovetail and receiver mount lug without modifications. Heavy forward locking screw provides rock solid stability at receiver ring. Picatinny rail provision now provides a sight channel that won't block use of iron sights. Repeatable-zero with this combat-proven design.
NOTE: Due to ongoing military requirements availability to civilian consumers may be limited.

SPECS: Wire EDM machined 4140 steel, black Melonite MIL SPEC finish, hardened to RC 60-62. 5.38" (13.6cm) Long, 1.875" (4.7cm) High, Weighs 10.9 oz. (310g). .
