I can not thank you enough for everything you did to make this happen for us. Our General Manager is meeting now with his management team to discuss how they will be presenting the George M. Low award to our employees and I know he will be very proud to have it displayed in your cabinet. Again thank you for all your help."**

**"In 1981 we opened our first jewelry store which consisted of three portable display cases, a jeweler's bench, and a vision of a first class store. In 2007 Tecno designed our dream cases. Our expectations were completely met. We got a Class A look with great lighting and plenty of drawers and storage space. Tecno, thank you for your superior craftsmanship and first class service. We have highly recommended you and will be calling on you when we open our next store."**

Jim Hattadis, Ancient Gold, Placerville, California

**"I just wanted to thank you again for your quick turnaround on our case. It turned out beautifully and looked like it was MADE for our booth! I am so pleased with it and Tecno Display for making things go as smoothly as they did. The temporary crate made it safely to Las Vegas. Now, the only task is to carefully reuse it to get the case safely back to Milpitas. Take a look!"**

**"We are a family owned retail chain of 27 stores in the New England area. Almost three years ago we started searching for a reputable, quality company to supply us with glass showcases when we decided to expand our jewelry departments. It was very important to us that our displays reflect the upscale, high quality look of our stores. We were referred to Tecno Displays, and after speaking at length with Patrick, we knew Tecno was the company we wanted to choose. Being on the other side of the country with multiple locations, delivery times were sometimes challenging, but, Tecno always met or beat our tight delivery dates. They were very particular about how their product was packed for delivery so it arrived in perfect condition. They even made minor changes on the fixtures to meet our personal needs. Tecno's customer service is outstanding - they are always pleasant and helpful. If we had any questions or concerns, they thoroughly researched it and got back to us promptly with the answers and recommendations. Our company is consistently expanding, and we look forward to continue working with Tecno Displays for our fixture needs."**

Karen Levine, The Paper Store, Acton, Massachusetts

**"Tecno Display worked diligently with us to custom design cases. The cases were to display tools in various weights and sizes. The success of this project was fantastic! This history of our company is now able to be shared in a beautiful surrounding. It was a pleasure to work with Tecno Display to create such fun display."**
