F30

DIRECT DRIVE TROWEL

From Float to Finish it's still the Master

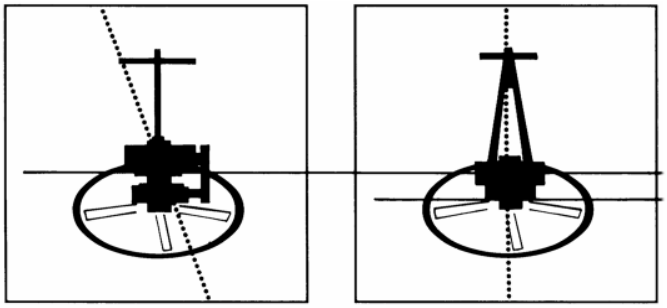

Features and Benefits:

- Direct Drive Means:
  - Low Center Of Gravity
  - No Belt To Adjust
  - Less Wobble And Side Torque
  - Increased Power to Gearbox And Spider
  - Longer Blade Life
- Only Direct-Drive Trowel In The Industry
- Fully Enclosed Blade-Pitch Mechanism
- Electric Deadman Switch For Safety
- Heavy-Duty Gearbox Standard

What Direct-Drive Means to the Professional Finisher

Conventional Belt Drive:
Has a high center of gravity and an unbalanced transfer of power from the engine to belt to gear box to blades which creates wobble and a loss of power.

Direct - Drive:
Has a low center of gravity and balanced power transfer which means a smoother, flatter finish with easier handling.
