

# Valve Stem Seals

Available for most applications ranging from automotive to off road dirt bikes. Valve stem seals are defined first by the actual measurement of the valve stem OD itself then by the guide OD. Proper seal height and width will be determined by valve spring clearance. **Sold in packs of sixteen.**

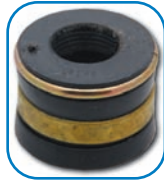

Umbrella

Positive All Rubber

Positive Ring & Spring

Positive Ring & Band

O-Ring

Metal Jacket

Metal Jacket "Hat"

### Metric Valve Stem

Part #	Stem OD	Guide OD	Height	OD	Type / Matl.	Retail

3213B-16	3/8		0.450	0.840	Umbrella Seal / Plastic	\$3.68

## Miscellaneous

Part #	Stem OD	Guide OD	Height	OD	Type / Matl.	Retail
3199V-16	.276	0.476	0.517	0.562	Metal Jacket / Viton (no int rubber)	\$24.16
3204B-16					Plastic	\$4.64

Part #	Stem OD	Guide OD	Height	OD	Type / Matl.	Retail
3240V-16			0.975	0.970	Metal Jacket (Hat) / Viton	\$56.64
3244V-16	.260	0.476	0.410	0.541	Metal Jacket / Viton	\$25.76

- Designed for extreme cylinder pressures
- Maintains a torque set
- Resists corrosion, will not burn through or push out
- Withstands different combinations of cylinder head & exhaust manifold materials
- No sealants are required

# Phuzion

Phuzion is the next stage in head gasket development from Cometic Gasket.

Comprised of a Cometic MLS head gasket and multiple Garlock Helicoflex gas filled o-rings. By combining the two technologies a superior combustion seal is created without machining any grooves in your block and/or head.

The gas filled o-ring portion of Phuzion is manufactured from high strength aerospace tubing capable of withstanding ultra high combustion temperatures and pressures. Additionally each ring is plated with silver to increase the sealing level and minimize brinelling. The silver also aids in withstanding head to block movements without burnishing the surfaces. The real innovation to the gas filled o-ring though, is the gas itself. During the manufacturing process the gas in the ring is sealed in at 500-600 psi at room temperature. As the engine is warmed up, the gas is heated increasing the pressure inside the ring causing it to expand. This allows the ring to seal the combustion even in the event of head liftoff.

**The MLS gasket** portion of Phuzion is what gives you the ability to use the gas filled o-rings without machining any grooves in your block and/or head. MLS head gaskets are comprised of three layers. Viton coated embossed spring steel outer layers and a steel inner layer, which provides support and thickness to the gasket. Embossments on the MLS gasket allow for proper seal around oil and water passages.

**Phuzion Requirements:**

Head and Deck surfaces should be within .002" of flatness and have a surface finish of 50RA or finer. The compressed operating thickness of Phuzion is .051".

## WEGO Wide-Band AFR (Air/Fuel Ratio) Metering System

Part #	Description	List Price
WEGO-SYS	Extended Harness (96")	\$462.85
WEGO-SYS-SH	Short Harness (48")	\$462.85
WEGO-SYS-AS	For Use With Methanol	\$548.95

### Features

- Complete air/fuel ratio metering system with built-in data logging. Includes WEGO Wide-Band Exhaust Gas Oxygen Senso Interface, Bosch LSU4.2 5-wire wide-band oxygen sensor, 18x1.5mm weld nut for mounting sensor on exhaust pipe, PC link cable, and software on CDROM.
- Versatile tuning aid for all carbureted and fuel injected engines, displays AFR (air/fuel ratio) and logs up to 3 hours data including AFR, engine RPM, and a spare 0-5V analog input for sensors such as throttle position or manifold pressure.
- Can be used for on-road or dyno testing.
- Suitable for automotive, motorcycle, and other small engine applications.
- Highly accurate with less than  $\pm 0.15$  AFR error over 10.3-19.5 AFR range.
- Easy free-air calibration procedure corrects for sensor aging effects.
- 0-5V analog output compatible with most data logging systems. Simple linear scaling with  $AFR = 10 + 2 \times \text{Volt}$ .

- Red LCD display with backlight provides great readability in all conditions ranging from bright sunlight to total darkness.
- Wide supply voltage range from 11-18V allows operation from battery on small engines and race vehicles without an alternator. Current drain is approx. 1 amp.
- Compact size: 3.7"L x 1.7"W x 0.75"H.
- WEGO data logging software runs under Windows 98/ME/XP. The PC link cable attaches to a serial (COM) port or USB adapter. The software allows viewing AFR, engine RPM, and analog sensor data with user defined scaling. Data can also be exported to Excel for further analysis.

## SL-1 Shift Light Controller & Vehicle Data

Part #	Description	List Price
CA-1002	Shift Light & Data Logger System	\$305.95

Shift Light and Vehicle Data Logger system for automotive applications. Includes USB cable and software on CDROM. Not legal for use or sale on pollution controlled vehicles when used for nitrous activation.

### Features

- Ultra high brightness red/gree/blue LED display can be panel mounted or attached to a tach with supplied bracket.
- Launch and multi-stage shift light capability. A launch RPM and up to five shift RPM levels can be defined to support up to six gear transmissions
- Built-in data logging. Ideal as basic vehicle data logger during dyno tuning or on the track. Logs data whenever system is armed. Stores last 5 minutes of data at 10 samples/second.
- Data logged includes throttle position, RPM, vehicle speed, status of all inputs and outputs, and two 0-5 volt analog inputs.
- Heavy duty industrial grade clamping terminal blocks allow easy and reliable hookup without soldering or crimping.
- Compact size: 3.3"L x 2.4"W x 1.1"H
- USB interface to laptop PC. Powerful Windows software for programming controller and downloading logged data.
- Gear detection is based on vehicle speed (if vehicle speed sensor is available) or RPM drop during shifting. Vehicle speed based gear detection allows use in applications other than drag racing as it allows correct gear sensing after down shifts.
- Launch detection is based on vehicle speed (if vehicle speed sensor is available) or a signal from a line lock solenoid.

## Nitrous Controller & Vehicle Data Logger

The NOX BOX-1 and NOX BOX-2 units have identical features and capabilities except that the NOX BOX-2 can directly drive two nitrous stages with progressive control (modulated flow). NOX BOX-1 requires external relays and is limited to on/off control.

### Features

- Drives two nitrous stages and purge solenoid. NOX BOX-2 is capable of 40 amp output on each stage.
- Each stage is independently programmable based on throttle position, RPM, vehicle speed, time delay, and first gear lockout. NOX BOX-2 adds capability for RPM or time based progressive control.
- Output for purge solenoid (requires external relay). Programmable automatic purge when system is armed.
- Flexible RPM input compatible with high voltage coil drive (vehicles with coil packs or distributor ignition), standard 12 volt tach signal, or low level logic drive (newer vehicles with coil-on-plug).
- General purpose input/output (GPIO) terminal. Programmable for use as shift light output, additional stage enable input, or control output for ignition retard.
- Status LED output (ideal for use with arming switch containing LED).
- Built-in data logging. Ideal as basic vehicle data logger during dyno tuning or drag racing. Logs data whenever system is armed. Stores last 5 minutes of data at 10 samples/second.
- Data logged includes throttle position, RPM, vehicle speed, status of all inputs and outputs, and two 0-5 volt analog inputs.
- 0-5 Volt analog inputs are compatible with Daytona Sensors single or dual channel WEGO II systems for logging wide-band air/fuel ratio data.
- Heavy duty industrial grade clamping terminal blocks allow easy and reliable hookup without soldering or crimping.
- Compact size: NOX BOX-1 is 3.3"L x 2.4"W x 1.1"H and NOX BOX-2 is 4.1"L x 2.8"W x 1.1"H (not including mounting feet and terminal block).
- USB interface to laptop PC. Powerful Windows software for programming controller and downloading logged data.

Part #	Description	List Price
NOX BOX-1	Nitrous Controller and Vehicle Data Logger for automotive applications. (Includes USB cable and software on CDROM)	\$183.80
NOX BOX-2	Progressive Nitrous Controller and Vehicle Data Logger for automotive applications. (Includes USB cable and software on CDROM)	\$256.35

### WARRANTY DISCLAIMER\*

Due to the nature of performance applications, the parts in this catalog are sold without any express warranty or any implied warranty of merchantability or fitness for a particular purpose. Cometic Gasket Inc. shall not, under any circumstances, be liable for any special, incidental or consequential damages, including, person, party or property, but not limited to, damage, or loss of property or equipment, loss of profits or revenue, cost of purchased or replacement goods, or claims of customers of the purchase, which may arise and/or result from sale, installation or use of these parts. Installation of these parts could adversely affect the motor manufacturers warranty coverage.

VENUE-The agreed upon venue, in the event of any dispute whatsoever between the parties, whether instituted by either party, including, but not limited to, contract terms, payment terms, delivery, type, defects, sufficiency of product, shall be the Court of Common Pleas, Lake County, Ohio or the Painesville Municipal Court, Lake County, Ohio, depending on the amount in controversy.

This agreement shall be governed by and construed under the laws of the State of Ohio.

All prices and terms are subject to change without notice.

Terms Open accounts may be established by well rated firms. A credit application is available upon request. Open accounts are due payable Net 30 days from date of invoice. No statement will be sent. If an account becomes 60 or more days past due, it is subject to being placed on credit hold. No orders will be shipped or new orders accepted until past due balance is paid. If an account becomes 90 or more days past due, it is subject to being placed for collections. All costs of collection are the responsibility of the customer, including attorney fees, court costs, and other expenses of litigation.

Returns- Authorization (RGA) must be obtained in advance on all returns. A packing slip or invoice number must accompany the merchandise. No returns after 30 days from invoice date. All returns are subject to a 25% restocking charge. All custom designed and custom manufactured gaskets are non-returnable. Only catalog parts are returnable.

Review your invoice and notify us immediately of any incorrect or inaccurate information. Shortages must be reported within 10 days.
