

CLEVELAND TANK

DIESEL • HYDRAULIC • CUSTOM • OEM

New Facility Coming in 2024!

We are **CLEVELAND TANK**

Located in Cleveland, Ohio, we design and produce diesel fuel and hydraulic fluid tanks for aftermarket, OEM and custom applications.

All our tanks are designed in-house by a team of highly skilled engineers to ensure a perfect fit and are manufactured by hand for unbeatable quality and performance.

At Cleveland Tank, we are committed to providing quality products, excellent customer service and on-time delivery that exceeds our customers' expectations.

The CLEVELAND TANK Difference

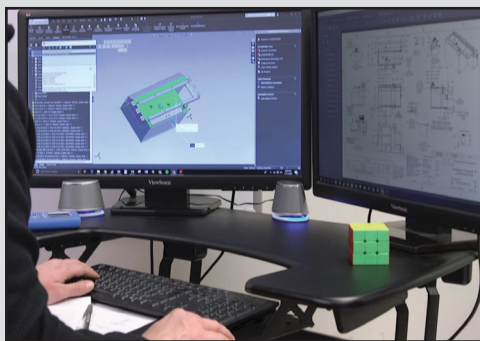

CUSTOMER SERVICE

At Cleveland Tank, we believe in providing our customers with top-notch customer service. Whether it's a product availability inquiry or a complete custom tank development project, our entire team is standing by ready to assist you with whatever questions you may have.

IN-STOCK INVENTORY

Our inventory and JIT programs are designed to meet your immediate needs. All our DOT-certified replacement tanks are stocked on a regular basis. We also have all the installation and mounting accessories you need. Best of all, all in-stock items ship within 48 hours.

IN-HOUSE ENGINEERS

Having a team of engineers on staff provides us with a major advantage over other tank manufacturers. Their expertise helps reduce costs, shorten lead times, provides project flexibility and guarantees that our customers receive a high-quality, long-lasting product with a perfect fit.

MADE IN THE USA

Located in Cleveland, Ohio, our tanks are proudly produced in America. From designing and engineering to fabricating and welding, every step of the tank process is completed by hand in our Cleveland-based facility. The result, high-quality tanks that are proudly made in the USA.

Custom-designed **diesel fuel tanks.**

For unique diesel fuel tank needs, use the creative and cost-saving expertise of Cleveland Tank's engineering team to create a custom tank design. Our full-service engineering bridges the entire project, from concept to design to production. All our tanks are made here in the USA and are ready for FMCSA certification.

ENGINEERING

We have an in-house engineering staff on hand to provide creative design assistance, help solve complex problems and deliver innovative solutions. Our team can quickly design tanks and tank mounting accessories that will proudly integrate into your offerings.

MANUFACTURING

With more than 30 years of manufacturing experience, we have developed advanced production techniques, have a wide variety of materials available to meet your needs, plus we can produce any mounting bracket, strap or hardware that may be required.

CERTIFYING

We understand and manufacture to the appropriate regulations that govern fuel tanks. We have extensive experience with side mount and non-side mount certifications and can provide required drop testing to certify new designs to FMSCA standards.

FINISHING

We have worked diligently to develop an advanced powder coat system and acid wash operation within our facility. Our industry leading powder coating and acid washing experts consistently deliver quality finishes to all our diesel fuel, hydraulic fluid and specialty tanks.

Biodiesel tank **solutions.**

Complex tank solutions are just one of our specialties here at Cleveland Tank! When one of our top OEMs approached us with a complicated problem, our highly skilled team of engineers and technicians developed this 2-in-1 biodiesel tank solution. The all aluminum tank features two completely separate chambers, one for diesel and one for biodiesel, and fits perfectly in our OEM's application. Contact us today to learn more about our biodiesel tank capabilities.

DIESEL TANKS

CYLINDRICAL

Our aftermarket cylindrical diesel fuel tanks feature a universal design that will work for most driver or passenger side installations and are available in your choice of high-strength steel or lightweight aluminum. Steel tanks are manufactured from high-grade steel and come with a long-lasting black powder coat finish. Aluminum tanks are built from corrosion-resistant aluminum and feature a bright acid wash finish. Aftermarket cylindrical tanks are DOT-approved and are always in stock and available for immediate shipment.

FEATURES

- Lightweight, corrosion-resistant aluminum tanks come with a bright acid etched finish
- Heavy-duty steel tanks come with a durable gloss black powder coat finish
- Pressure tested for leaks
- For use with diesel fuel
- DOT-approved

INCLUDED ITEMS

- Rollover protection vent
- Vent tubing
- Fuel cap
- Drawtube
- Return
- Equalizer fittings
- Sending unit flange

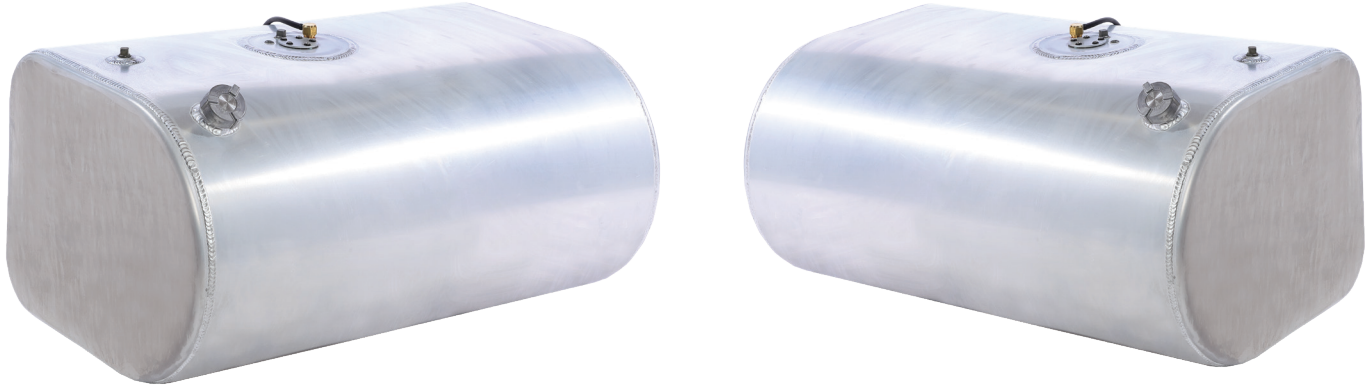

OPTIONS

- Sending unit
- Sight gauge
- Locking fuel cap
- Drain check valve

DIESEL TANKS

D-SHAPE

We stock a complete line of aftermarket D-shape diesel fuel tanks. Featuring a universal design, our D-tanks will fit most driver or passenger applications, are DOT-approved and are available in a range of different capacities for a wide variety of applications. D-tanks are constructed from high-strength corrosion-resistant aluminum, come with a bright acid wash finish and provide significant weight savings over comparable steel tanks. D-shape tanks are always in stock and available for immediate shipment.

FEATURES

- Lightweight, corrosion-resistant aluminum construction
- Bright acid etched finish
- Pressure tested for leaks
- For use with diesel fuel
- DOT-approved

INCLUDED ITEMS

- Rollover protection vent
- Vent tubing
- Fuel cap

Replacement diesel tanks for Freightliner FL-Series trucks.

Cleveland Tank carries a large selection of DOT-certified diesel fuel tanks for popular Freightliner FL-Series trucks. Available in aluminum or steel, our tanks are designed to replace original tanks where the steps were bolted into the tank. By eliminating the tank through bolt, our tanks reduce premature leaking, rusting and paint blisters. Contact our team for more information today.

DIESEL TANKS

RECTANGULAR

Cleveland Tank's aftermarket rectangular diesel fuel tanks offer the perfect replacement tank for a wide variety of applications. Rectangular tanks are DOT-approved, feature a universal design that will fit hundreds of different vehicles and are available in various dimensions, volumes and configurations. Rectangle-shaped tanks come in your choice of high-grade steel with a corrosion-resistant black powder coat finish or light-weight aluminum with a bright acid wash finish. Plus, all rectangular tanks are always in stock and available for immediate shipment.

FEATURES

- Lightweight, corrosion-resistant aluminum tanks come with a bright acid etched finish
- Heavy-duty steel tanks come with a durable gloss black powder coat finish
- Pressure tested for leaks
- For use with diesel fuel
- DOT-approved

INCLUDED ITEMS

- Rollover protection vent
- Vent tubing
- Fuel cap
- Drawtube

PARTS & ACCESSORIES

MOUNTING KITS

Cleveland Tank's fuel tank mounting kits are cost effective solutions to over priced kits from the dealer and incomplete kits from salvage yards. Our kits come packed with everything you need to install a diesel fuel tank. We provide a complete line of options to assist in mounting fuel tanks and every system is designed to meet industry standards.

FEATURES

- Steel brackets have a durable black powder coat finish
- Brackets available in "J" or "L" style
- Include steel or stainless steel straps
- Rubber insulators come in a 10 ft. roll

Kits available with additional components
— call 216.771.8265 or visit clevelandtank.com for details.

Part #	Bracket Material	Bracket Style	Bracket Qty.	Bracket Insulator Qty.	Strap Material	Strap Qty.	Strap Insulator Qty.	Notes
KJ16-S-1	Steel	"J"	1	1	Steel	1	1	Fits most 16" dia. fuel tanks
KJ16-S-2	Steel	"J"	2	1	Steel	2	1	Fits most 16" dia. fuel tanks
KJ16-SS-1	Steel	"J"	1	1	Stainless Steel	1	1	Fits most 16" dia. fuel tanks
KJ16-SS-2	Steel	"J"	2	1	Stainless Steel	2	1	Fits most 16" dia. fuel tanks
KJ22-S-2	Steel	"J"	2	1	Steel	2	1	Fits most 22" dia. fuel tanks
KJ22-SS-2	Steel	"J"	2	1	Stainless Steel	2	1	Fits most 22" dia. fuel tanks
KJ24-S-2	Steel	"J"	2	1	Steel	2	1	Fits most 24" dia. fuel tanks
KJ24-SS-2	Steel	"J"	2	1	Stainless Steel	2	1	Fits most 24" dia. fuel tanks
KJ26-S-2	Steel	"J"	2	1	Steel	2	1	Fits most 26" dia. fuel tanks
KJ26-SS-2	Steel	"J"	2	1	Stainless Steel	2	1	Fits most 26" dia. fuel tanks
KL1130-S	Steel	"L"	2	1	Steel	2	1	Fits most 11" high fuel tanks
KL1130-SS	Steel	"L"	2	1	Stainless Steel	2	1	Fits most 11" high fuel tanks
KL1450-S-B	Steel	"L"	2	1	Steel	2	1	Fits most 14" high fuel tanks
KL1550-S-B	Steel	"L"	2	1	Steel	2	1	Fits most 15" high fuel tanks
KL1670-S-B	Steel	"L"	2	1	Steel	2	1	Fits most 16" high fuel tanks
KL1850-S	Steel	"L"	2	1	Steel	2	1	Fits most 18" high fuel tanks
KL1850-SS	Steel	"L"	2	1	Stainless Steel	2	1	Fits most 18" high fuel tanks
KL1950-S	Steel	"L"	2	1	Steel	2	1	Fits most 19" high fuel tanks
KL1950-SS	Steel	"L"	2	1	Stainless Steel	2	1	Fits most 19" high fuel tanks
KL24100-S-2	Steel	"L"	2	1	Steel	2	1	Fits most 24" high fuel tanks
KL24100-SS-2	Steel	"L"	2	1	Stainless Steel	2	1	Fits most 24" high fuel tanks

PARTS & ACCESSORIES

MOUNTING STRAPS

Our high-strength fuel tank straps are hand bent and welded and are available in your choice of steel or stainless steel. Plus, every strap includes all necessary hardware, like T-bolts, lock nuts and washers.

FEATURES

- Steel straps come with a durable black powder coat finish
- Available with T-bolt and/or loop ends
- Zinc-plated hardware (where applicable)

Straps can be custom made to any length
— call 216.771.8265 or visit
clevelandtank.com for details.

Steel Part #	Stainless Steel Part #	Length	Width	Bolt Styles
S3400TL200-51	SS3400TL200-51	34.00"	2.00"	T-bolt/Loop

S5550TT175-00	SS5550TT175-00	55.50"	1.75"	T-bolt/T-bolt
S5750TT175-00	SS5750TT175-00	57.50"	1.75"	T-bolt/T-bolt
S5800TT200-00	SS5800TT200-00	58.00"	2.00"	T-bolt/T-bolt

RUBBER INSULATORS

Eliminate vibration and prevent tank chafing with our extra-thick rubber insulators. They come in different lengths, are available with a C-channel design or self-adhesive backing and can be easily cut to the desired length. C-channel style insulators mount on fuel tank straps and self-adhesive insulators install on fuel tank brackets.

FEATURES

- Heavy-duty rubber construction

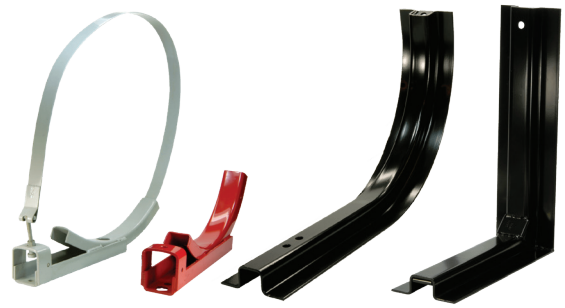

Custom length rubber insulators available
— call 216.771.8265 or visit
clevelandtank.com for details.

Part #	Length	Width	Notes
RI1.75-01	10'	1.75"	C-channel style
RI1.75-100	100'	1.75"	C-channel style
RI2.00-01	10'	2.00"	C-channel style
RI2.00-100	100'	2.00"	C-channel style
RIF1.50	10'	1.50"	Self-adhesive backing
RIF1.50-100	100'	1.50"	Self-adhesive backing

MOUNTING BRACKETS

When looking for replacement fuel tank mounting brackets, look no further than our cost-effective brackets. We offer a large selection of fuel tank mounting brackets in a variety of different styles for a hundreds of applications. Contact us today to learn more about our available mounting bracket styles.

FEATURES

- Brackets available in "J" or "L" style
- Heavy-duty steel construction
- Durable gloss black powder coat finish

Custom mounting brackets available upon request — call 216.771.8265 or visit clevelandtank.com for details.

Part #	Bracket Material	Bracket Style	Length	Width	Height

FC1349AD	Aluminum	3.00"	Female	8	No

Your source for **hydraulic fluid tanks.**

At Cleveland Tank, our team's engineering and manufacturing capabilities reach beyond diesel fuel tanks to include hydraulic fluid tanks and reservoirs. Our team can develop a hydraulic storage tank specific to your application's requirements. From mass produced to one-off, we can do it all. Contact us today to find out more.

MASS PRODUCED OEM TANKS

Whether your OEM application requires a standard or complex tank, we work closely with you to ensure your application receives a high-quality, leak-free hydraulic tank with a perfect fit.

ONE-OFF CUSTOM TANKS

For unique tank needs, our engineering team will design a custom tank solution and work with you throughout the entire project to ensure you receive a high-quality finished product.

Contact us at **216.771.8265** to learn more about our **hydraulic tank capabilities.**
