

QUADCON

QUADCON

The Quadcon is a unique and versatile mini-container originally developed for use by the United States Armed Forces. The unit is configured to enable four containers to be secured together using the exclusive SeaLock connector. The resulting package has the same footprint as a standard 20' ISO intermodal container.

Alternatively, two Quadcons may be connected together to create a 10' ISO container. This four-into-one concept offers the advantages of a segregated loading pattern with the ease of handling of a standard 20' container. Intended for use as a transport/storage unit, the Quadcon's double-door access offers a wide range of options for on-site storage sheds, mobile lockers, capital equipment housings, etc.

Quadcon's all-steel construction and unique versatility makes it an ideal new option for both commercial and military operations.

Charleston Marine Containers, Inc., a Kratos company, is a leading design, engineering, manufacturer and integrator of modular intermodal, and specialty container systems. CMCI offers high levels of custom in-house integration for increased solutions to mission requirements. Strategically located in Charleston SC, CMCI can meet your needs by land, sea or air.

Charleston Marine Containers, Inc.
Gichner Systems Group

A **KRATOS** Company

DURABLE - VERSATILE - AFFORDABLE

Features

- All CORTEN steel construction
- Four-way forklift pockets
- Full marine metal preparation/painting specification
- Full-width access doors on both ends of container
- Non-slip tread plate floor
- Simply and quickly secured together using SeaLock connectors

- ISO tested and CSC approved by Lloyd's Register for use in the 10' and 20' module configuration
- Over 6 cubic meters (217 cubic feet) of internal capacity
- Over 4.2 tons (9,400 lbs.) payload capacity
- Easily repaired (essentially same construction as a 20'/40' steel container)

Specifications

External Length	2,438 mm	96"
External Width	1,457 mm	57.375"
External Height	2,082 mm	82"
Internal Length	2,296 mm	90.375"
Internal Width	1,419 mm	55.875"
Internal Height	1,889 mm	74.375"
Door Opening Width	1,362 mm	53.625"
Door Opening Height	1,791 mm	70.5"
Maximum Gross Weight	5,080 kg	11,200 lbs
Tare Weight	800 kg	1,764 lbs
Payload Weight	4,280 kg	9,436 lbs
Internal Volume	6.15 cu.m	217 cu.ft
Fork Pocket Height	113 mm	4.45"
Fork Pocket Width	368 mm	14.5"
Fork Pocket Centers		
Ends	733 mm	28.86"
Sides	882 mm	34.72"
