# Aero-Missile Components

**A**ero-Missile Components is a recognized leader in the military and aerospace fastener fields, supporting many government agencies and prime contractors and their subcontractors.

Our inventory consists of tens of thousands of items stocked under NSN, FSN, AN, MS, and NAS specifications along with many manufacturers' part numbers. We also maintain an extensive library of military drawings. We have the capabilities to have specials manufactured to your specifications.

Quality is the key to our success here at Aero-Missile Components. Our quality mission is to provide only material that meets or exceeds our customers' requirements—no exceptions.

Our quality system is ISO 9001:2000 certified and registered.

#### Compliant with:

- Mil-I-45208 – Base used for inspection requirements
- ANSI/NCSL Z540-1 – Calibration of measuring equipment
- QAP EQ001 – Zero defect sampling plan

#### Features and Capabilities:

- Full line of certified measuring equipment
- System 22 thread inspection
- Full line of packaging and barcode equipment
- Full lot traceability to source
- Corrective and preventive action systems

#### Approvals:

- DSCP-QSLD program. Resident QAR.
- Boeing – D1-4426 approval
- Lockheed – Approved vendor program
- Thiokol – Approved vendor program
- Vickers Inc. – Approved vendor program
- Triumph Controls – Approved vendor program

#### A Sample of Items We Supply...

##### Bolts

AN3 – AN20  
AN21 – AN28  
MS90725  
MS90726  
MS90727  
MS90728  
ANSI B18.2.1

##### Washers

AN960  
AN970  
MS15795  
MS27183  
MS51859  
NAS620  
NAS1149

##### Nuts

AN340  
AN345  
MS35649  
MS35650  
MS51971  
MS51972

##### Rivets

MS20426  
MS20470  
MS20613  
MS20615

##### Screws

MS16997  
MS16998  
MS24693

## Aero-Missile Components Product Lines

### AEROSPACE PRODUCTS DIVISION

High Performance Aerospace and Military Fasteners for Critical Applications.

Applications in Airframe, Turbine Engine, Space Vehicles, and Missile Assemblies as well as Ground Support Equipment.

*Bolts External Drive* – 12-point tension & shear bolts, 10-point, Hex head bolts, Spline bolts, Tee head, Flush head and Pan head.

*Bolts Internal Drive* – High Torque, TORQ-SET, PHILLIPS, TRI-Wing, TORX and Square socket.

### SPS Flexloc™ Nuts

FLEXLOC locknuts – Military, Aerospace and Commercial Applications. All Metal Prevailing Torque Locknuts, Castellated Locknuts, Barrel nuts, Swage nuts, Channel nuts and Nut retainers. Special Engineered Nut Capabilities.

### Greer™ – Nylon Lock Nuts

Military, Aerospace and Commercial applications.

Nylon Insert Locknuts, Castellated Locknuts, All Metal Prevailing Torque Locknuts, Special Engineered Nut Capabilities.

### Avibank™ – Quick Release Pins & Latches

Used wherever quick or frequent assembly or disassembly is required. Manufactured to meet MS, NAS and Customer Standards.

### Unbrako

Socket Screw products that meet all customer requirements and specifications. Socket Head Cap Screws – Flat Head, Button Head, Shoulder Screws, Socket Set Screws, Dowel Pins and Special Engineered Fastener capabilities.

Military hex head cap screws  
Grade 5 and Grade 8

Nuts  
Military and Commercial application hex nuts  
#4 through one inch  
Grade 5 and Grade 8

### PILGRIM SCREW™

Military Standards and special screws and bolts

### ALCOA FAIRCHILD CAMLOC/RAM™

1/4-turn Fasteners and Latches for Military and Aerospace applications

### ALCOA FAIRCHILD ROSAN™

Ring locked inserts—*Slimsert™* & *Delron™*  
Military Part Numbers:  
MS51989 through MS51997 and  
MS51497 through MS51498  
AS3319 through AS3322 and  
M45932/1 through M45932/3

### ALCOA FAIRCHILD TRIDAIR™

*Keensert™* – Threaded Inserts and Captive Screws. Quick repair of stripped, damaged or worn threads in Sizes #8 through 1/2" and Metric M5 through M24

**CALL AMC TOLL-FREE (877) 245-1330**

Aero-Missile Components is committed to providing our customers with consistent, cost-effective, high-quality products meeting or exceeding customer specifications and regulatory requirements. Each vendor selected shall also share this commitment.

Our quality management system is not a set of fixed rules, but a continuous, dynamic process that changes to encompass improvements in the products we provide, our services and processes.

All Aero-Missile Components employees receive regular training to ensure that procedures are current and that quality measures are correctly implemented.

Our quality standard is the internationally recognized ISO 9001:2000.
