VARN KOMPAC II® AUTOMATIC DAMPENER AND COMMON PARTS & ROLLERS

Key advantages & cost justification of the Kompac:

AUTOMATIC INK/WATER BALANCE - With the Kompac II and its automatic ink/water balance, you have clean copy with 3rd sheet saleable no matter what the image. You can run the heaviest color coverage with oil, rubber, metallic or fluorescent inks. Any type of ink on any plate.

REDUCES STOCK WASTE - Poor ink/water control is the greatest cause of stock waste in offset printing. Instant start-ups, automatic ink/water control & the consistency of the Kompac radically reduce waste. The Kompac system will save 5% and more of annual stock purchases.

IMPROVED PRINT QUALITY. BRIGHT, SHARP COLORS AND DENSE SOLIDS - With the Kompac System, ink is milled into the fountain solution. This permits printing larger solids, fine screens, tiny reverses and crisp halftones. Many printing jobs farmed out or scaled up to larger equipment can now be run more profitably on a smaller offset press. Improved print quality is one of the major advantages of the Kompac

For proper ordering, have model & serial # of Kompac unit

FASTER PRINT SPEEDS - The Kompac II prints a thinner film of ink and water. Besides jobs turning over faster, those tough jobs containing larger solids and screens, tiny reverses and those using lightweight stock, NCR etc., which traditionally can now be run at normal press speeds. Most regular jobs can be run at faster press speeds with improved print quality.

CRESTLINE DAMPERS, ROLLERS, PARTS AND CHEMISTRY

Crestline® Altra Series Dampener

The *Crestline Altra Series Continuous Feed Dampener* provides instant ink and water balance, runs without alcohol and installs quickly without altering the press. The *Crestline Altra* features a press driven oscillator for improved milling of ink and water, a removable form roller and is adaptable to any circulator. Available for AB Dick 9985; Didde 8.5; Apollo 11 & 17, DG175, MCP; Hamada C248, C252; Heidelberg GTO46, GTO52, MO; Itek 3985; Ryobi 3302; Sakurai 52, 52E, 252, 58, 258E; Shinohara 52S, 65/66, 65IIP/66IIP

Crestline® Continuous Feed Dampener

Designed for small offset presses, the Crestline Continuous Feed Dampener provides instant ink & water balance, runs without alcohol, and is segregated from the ink train to prevent moisture for migrating back into the ink fountain. Installation can be done in just a few hours, without altering the press, and operator training can be achieved in less than an hour. **Available for:** AB Dick 350, 360, 375, 8800, 9800, 9870, 9900; Multi 1218, 1250, 1360, 1450, 1650, 1850, 1860, 1960; Hamada DU34DL, E47, E47S, RS/VS, SU47, 500CDA, 600, 665, 611, 611E, 612, 612E, 700, 775; Imperial 2200, 3200, 4200; Itek 950, 960, 975, 985; Ryobi 2700, 2800, 3200, 3200E, 3200MCD, 500N; Toko 1800, 4700; Townsend T-51 for ABDick 360 (stationary only) 8800, 9800; Itek 950, 960, 975, 985; Ryobi 2700, 2800, 3200, 3200E, 3200MCD

We carry the complete line of parts, rollers and chemistry for all Crestline Dampeners

The following is a list of the more common rollers for Crestline Dampeners. For more information and other presses no listed here go to www.ppsnj.com/crestline/crestline_fup/htm

Please be sure to have Crestline Model Number & Serial Number when ordering.

bigfoot™

Bigfoot features a spring loaded vacuum controlled piston (just like the big boys) that gives the best sheet seeking action you've ever seen. Self adjusting, **Bigfoot** doesn't care how uneven the stack is and eliminates the problem of dragging your feet over wet ink. As soon as it finds the sheet, **Bigfoot** retracts and stays that way until the sheet is in-fed, then goes for the next one. You get perfect separation, every time. No more messing

around with spring loaded feet that tend to punch holes in the stock, or trying to fine tune the ones that come with the press as you go from one job to the next. The only adjustment you'll ever have to make with **Bigfoot** is for the size of the stock.

THE IONIX™ STATIC ELIMINATOR

Now coated stock runs like offset. 70# coated will run like 60# offset. 3, 4, 5 part carbonless will run like 20#. Your press will run faster with less paper jams.

NEW TECHNOLOGY-The Ionix utilizes an entirely unique patented technology to neutralize static in materials. Therefore, unlike any other static eliminators, the presence of metals in its path has no effect on its operation.

EASE OF INSTALLATION-The Ionix installs in less than 10 minutes on any airline. Simply cut the main blower line from the compressor going to the blow hose in your feeder. To install the unit, simply slip on the hoses over the tapered barb nozzles on the Ionix filter.

WIDE RANGE OF APPLICATIONS -The Ionix has been installed throughout the world on presses as small as ABDick 350 to presses as large as Harris 77", as well as folders, collators, laminators, sheeters, saddle binders, mailing machines, screen presses, high speed copiers and material handling equipment.

HOW IT WORKS -Paper develops an electrical attraction Between the sheets of paper which causes them to stick together. The Ionix utilizes the air going to your feeder to de-ionize the paper. When the blower air passes through our filter, the air is given an ionizing charge. When blown between the sheets of a paper, the Ionix ionized air immediately neutralizes the charged sheets and the sheets electrically separate from themselves. ANY paper will run easier and faster, since essentially the paper is made "slippery" electrically.

FOR SHEET FED PRESSES & FOLDERS

Model 100 for presses/folders sheet size up to 14" x 19" \$94.00

Model 200 for presses/folders sheet size up to 22" x 34" \$129.00

Model 300 for presses/folders sheet size up to 26" x 40" \$169.00

Please provide blower hose inside diameter when ordering: 1/4"; 1/2"; 3/4"; 1"; 1 1/4".

DUROWEAVE™ DAMPENING COVERS

Duroweave - The Premium Sheared Surface Dampening Cover for Duplicators, Sheetfed and Web Presses. Soft synthetic fibers, seamless construction. Cleans easily with tap water in less than one minute. Guaranteed lint free - run really clean solids. Shrinks for a tight fit - guaranteed not to "walk".

Provides durable, long lasting performance. Packaged in pre-cut lengths with drawstrings on both ends for duplicators & smaller sheetfed and web presses. Also available in: 5, 10 and 20 yard rolls for larger sheetfed and web presses.

VERATEC RED RUNNER™ DAMPENING SLEEVES are long lasting, clean up easily and are lint-free. Red Runner's unique and patented fiber system delivers unprecedented control of ink and water balance. And it's consistent and ultra fine surface provides a new level in pattern-free performance. There are no low spots, tracking or morning bands. And, unlike rigid tubes, Red Runner Dampening Sleeves can't break, crack or split. Available for all 3M® water form rollers. Some of the popular sizes are:

AEROSOLS FOR GRAPHIC ARTS, HS BOYD PERF & SCORE

SPRAY ADHESIVE

for use in the art studio, sign shop & graphic arts department. Water resistant, non-wrinkling, quick or long tack for temporary or permanent bond.

SW-66 \$7.95

RUBBER CLEANER AND REJUVENATOR

returns life to ink laden hardened rollers and blankets. Removes glaze from gum, friction, ink, coatings and oxidation. Restores velvety smooth finish.

SW-203 \$6.95

SPRAY ADHESIVE

for use in the art studio, sign shop & graphic arts department. Water resistant, non-wrinkling, quick or long tack for temporary or permanent bond.

SW-66 \$7.95

RUBBER CLEANER AND REJUVENATOR

returns life to ink laden hardened rollers and blankets. Removes glaze from gum, friction, ink, coatings and oxidation. Restores velvety smooth finish.

SW-203 \$6.95

VARN AEROSOLS

INKREAD! Anti Skin aerosol contains no wax and will not affect color, consistency or drying speed. Spray on ink rollers and ink fountain. Spray new rubber to reduce oxidation, roller ends to prevent glazing and cracking.
\$7.60

ANTI-STATIC SPRAY Eliminates static buildup on feedboards and stock. Kills static in one quick spray. Spray on printing & bindery equipment: presses, folders, cutters, conveyors, gluers, drive belts & anywhere frictions builds up.
\$7.80

GLASS CLEANER Professionally formulated for the graphic arts. Use on light and stripping tables, darkroom and vacuum frames. Anti-static action retards dust attraction and eliminates pin holes on negatives.
\$5.15

SILICONE SPRAY Adds slip to metal surfaces. Use anywhere paper contacts metal surfaces. Spray on impression, blanket and plate cylinders, feedboards, feeder and delivery wheels, cutting tables, etc...
\$8.80

WD-40 13.5 oz. can Stops squeaks, protects metal, loosens rusty parts and frees sticky mechanisms. \$4.15

HS BOYD OFFSET RULES

H.S. BOYD OFFSET RULES

Why give profits away? Keep profits where you want them-in house. H.S. Boyd Offset Rules attach to the impression cylinder of the press and enable the operator to perf, score, slit and punch on-press-while you print! Quality manufacturing steps provide you with products you can count on to perform consistently. This translates into lower costs and higher quality for your clients.

- Heat-treated for strength•Available in the original Side Series (SS) or new Center Series (CS) for increased pressure and longer runs
- Available in a variety of configurations for a multitude of applications•Sharpened with diamond-wheel sharpeners. **\$39.95 20' ROLL**

SIDE-SERIES BLADES

Litho-Perf / SS

•Boyd's first offset perforating product, the Litho-Perf continues to offer reliability and high quality performance. It is available with 6, 8, 12 or 16 teeth per inch and in heights from 12.5/1000 inch 29/1000 inch. This variety of blade heights gives the printer the ability to perform perforations on a multitude of stocks.

Litho-Score / SS

• Innovator of in-the-run, on press scoring, Litho-Score holds consistent register with the printed copy. The rule prepares the stock for a neater fold and is available in various heights for different stocks.

CENTER-SERIES (CS) BLADES

Litho-Perf / CS

•Offering the same on-press perforating performance as the standard side-series Litho-Perf, the Litho-Perf/CS has center mounted teeth for increased pressure and longer runs. This is the only center-mounted rule that has been heat treated for extended life.

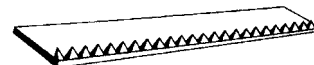

Litho-Score/CS

•A new development for the offset press, the Litho-Score/CS has no sharp edges that could cut the stock. And the wider, rounded scoring edge will eliminate cracking on heavier stocks. H.S. Boyd Company is the sole manufacturer of these types of scoring blades available for paper or card stock.

MICRO-PERF is designed for use on any paper or lightweight card stock, ideal for perforating continuous feed forms. Perf line remains clean, no stray fibers or rough edges: 30, 40 or 50 tp.

\$39.95 10' ROLL

BLANKETS: Reeves Vulcan & SRF High Quality Blue 3 Ply Compressible. Also available in 4 ply. We have under-blankets, 2 part stickie back blankets and Reeves R914 5 ply specifically for Ryobi/Itek models.

**PROCOTE 2000® HANDWAXER**

Rubber cement & spray adhesives are slow & messy. Paste ups with ordinary hand waxers are frustrating, lengthy warm ups, uneven wax coating, messy spilled wax.

Daige Procote 2000® eliminates all these problems because Procote 2000® is state-of-the art in hand waxing.

Other styles and sizes available

New Graphic Arts Type Gauge Rulers

Opaque rulers printed two sides include all the scales that you need for quick accurate type specifying. They feature precision cut slots to keep all point size scales flush to the edge for easy measuring. Durable plastic laminated construction.

Scales include:

- Eight different point size type gauge
- Inch scale, Pica scale
- Agate scale, E Scale chart
- Printer's point size scale
- Ten line rules - Hairline to 24 point

Available in 2 great sizes:

BH-GA-88 (Standard size, 2 3/4"x12 3/8") \$7.95

BH-GA-89 (Pocket size, 2 3/4"x7 3/8") \$5.95

ALIGNMATE \$8.95

AlignMate®

8"x6" wide

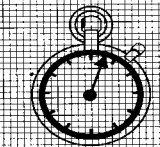

straight (strāt), *adj.*, undeviating, right, correct, in proper order or condition.

Use the AlignMate tool to check for straightness of text & graphics on paper sizes up to 11" x 14".

The edge of the printed material rests in the "C" fold which is precisely aligned with the 16 per inch grid.

AlignMate tools provide the precision of a T-square in a fraction of the time.

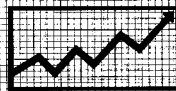

Cleanup is easy using soap & water or any standard blanket wash.

Save Time

Reduce Waste

AlignMate®

PROPORTION SCALES

Both proportion dials are designed to quickly ascertain new reproduction sizes for original art, copy or photos; give percentage of enlargement or reduction; show new size of any element or area of an original when the whole original is reproduced to a new size. Both have graduations in fractions under 1".

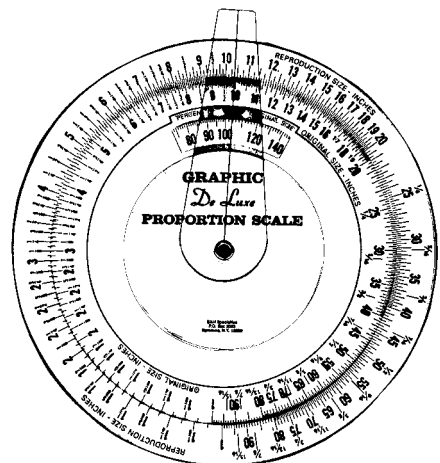

BH-LPS-80 8" \$8.00

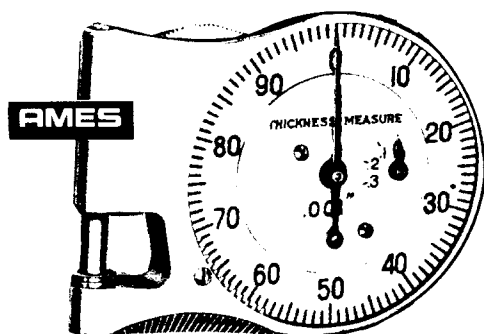

DELUXE DIAL

This dial is the same as above except it is 8-1/2" in diameter and has a clear cursor arm to "line up" graduations for easy reading.

BH-L657-A 8-1/2" \$12.00

DIAL THICKNESS & BLANKET PACKING GAUGES, DUROMETER

Graduated .001". Each graduation is equal to .001", each revolution of the pointer equals .100" Comes with case.

AMES

BH-25	.001"	\$191.55
BH-251	.0005" graduation	\$202.90

Graduated .001" Pocket gauge weight is under 2 oz. Easy zero adjustment, measuring surface is hardened, ground & lapped. Comes with case.

FOWLER

BH-52-545	.001"	\$133.95
BH-52-545-M	same as above except metric.	\$133.95

MICROMETERS

Features clear, easy to read numbers on the digital counter. As an added assurance of error free reading, every fifth thousandth is numbered on the thimble. The digit counter reads to .001", the sleeve reads to .0001".

FOWLER DIGITAL

BH-52-222-001	Inch	\$138.20
BH-52-223-005	Metric	\$138.20

A practical and economical measuring device. Accuracy guaranteed to .001". Satin finish frames have friction thimble to permit consistent measurements. Hex wrench included for simple zero adjustments.

UTILITY MICROMETER

BH-L102	Economy	\$29.95
BH-52-229-001	Fowler-Inch	\$45.00

TRUPAK BLANKET PACKING GAUGES

Use these gauges to measure packing of your blanket cylinders. Reduce dot gain, problems from overpacking, and wear on plates and cylinder bearings. Measures on press without damage to the blanket or plate.

Part#	Scale	Application	Price

LIT-EQP-TPFA		Guard Jumper Arm Option	\$69.00

PLEXUS DUROMETER

A durometer is used to measure the hardness of "soft" surfaces such as printing rollers. Regular use of a durometer detects bad printing rollers before they cause print quality problems. Old rollers that have been used in alcohol dampening systems for extended periods of time may have become too hard to function properly. Use this simple, accurate device to determine if excessively hard rollers are causing your problems.

LIT-EQP-PLD	\$299.00

Laser Direct™ - 50000 Series Laser Plates provide a high quality and affordable computer-to-plate solution to small and medium size press rooms. Ideal for short runs and spot color printing, Laser Direct plates are directly imaged using a high-resolution, dry tone laser printer (the HP LaserJet 5000/5100 series printer is ideal). Laser Direct plates do not require any additional processing. Simply wet the plate and run with specially formulated Laser Direct™ Universal Fountain Solution (diluted 32:1, water to solution). The plate's award winning technology offers enhanced surface conductivity and improved handling properties to provide fast turnaround and excellent quality. Laser Direct™ plates can be imaged on either side, can print in excess of 10,000 impressions, and hold screens of 120 LPI or better.

CHEMICALS: ROLLERS & BLANKET CARE, PLATE CLEANERS/CONDITIONERS, GUM

BURNSHINE® PRODUCTS

Roller and blankets cleaners that cut color change time by 50%.

PUTZ POMADE®

A must for deep cleaning of neglected rollers. Stops glazing and stripping; sharpens reproduction; rejuvenates and reconditions blankets and rollers.

BP-Y1	7 oz Bottle	Liquid	\$10.05
BP-Y3	13 oz Can	Liquid	\$15.10
BP-R1	15 oz. Can	Paste	\$10.70

CLEAR GEL™

A non-abrasive rollers and blankets cleaner that increases ink affinity to produce brighter colors and sharper reproductions, as well as a daily deglazer and conditioner. Ideal for quick color changes (even black to yellow). Prevents stripping and glazing. Extends roller life

BP-Y9 16 oz. Bottle Liquid \$13.15

PRINTERS PRIDE CHROME CLEANER and DESENSITIZER

This one step cleaner is one of the easiest and most reliable. Apply to chrome rollers, cylinders, anywhere you don't want ink to stick. Wipe on, and leave on. No scrubbing, no need to remove before printing. Will desensitize chrome, making it more Hydrophilic "Water-Loving" and Oleophobic "Ink-Hating"

BP-3462Q1 qt. \$13.35

VARN® ORANGE-SCRUB HAND CLEANER

Citrus oil naturally and effectively breaks down and removes ink, dirt, grease and grime. Contains mild scrubbing beads, does not contain pumice.

V-ORANGE-SCRUB.4 4.5 lb. \$17.55

VARN® TRUE BLUE PLATE CLEANER/CONDITIONER

The original blue plate cleaner that has become the Industry standard. True Blue quickly and completely opens all types of metal plates, even after long periods of storage. Use to remove surface scratches, oxidation spots, semi-dried ink and gum streaks which reduce print quality. True Blue restores ink receptivity, just apply and rinse.

V-TRUE BLUE 1 qt. \$15.80

VARN® GUM ARABIC

100% Pure Gum arabic 14°Be. Flows to a smooth, thin, uniform film and offers maximum protection on plates and maximum performance in the fountain.

V-GUM ARABIC 1 qt. \$10.80

VARN® INK DRYING STIMULATOR

A water fountain additive to speed ink drying. Works with all acid based fountain solutions. Reduces smearing and set-off and greatly accelerates job turnaround.

#V-IDS 1 gal. \$49.00

VARN® COMPOUND 747

Makes good ink run better. Improves ink lay, reduces tack and makes it easier to control ink/water balance. prevents sheets from sticking to blankets and reduces picking.

#V-747 1 qt. \$10.95

VAN SON® RAPID 1STEP Glaze Remover

Prevents sticking, crystallization, offset and picking

GL-GVS2028 1 qt. \$ 9.95

GL-GVS2029 1 gal. \$32.95

VAN SON® SMOOTH LITH

Prevents sticking, crystallization, offset and picking

GL-GVS2150 1 qt. \$12.45

VAN SON® EAST STREET Roller Cleaner

Prevents sticking, crystallization, offset and picking

GL-GVS2082 10 oz. \$13.95

BURNSHINE® PLATE SAV-UR

America's leading cleaner and conditioner for metal plates. Removes scratches, scum, gum streaks and oxidation. Excellent re-starter for "standing" or pick-up" plates.

BP-P2 1 qt. \$11.90

BP-P1 1 gal. \$44.35

BURNSHINE® GOLD MIRACLE

Made expressly for photo-direct plates such as Onyx®, Megalith®, Silvertex®, Silvermaster® and all other silver based plates. This is a superb starter, cleaner, conditioner and scratch remover. It eliminates toning, scumming, scratches and paste-up marks as it gives longer, cleaner press runs.

BP-L2 1 pt. \$8.50

CHEMICALS: PRESS WASH AND FOUNTAIN SOLUTIONS

VARN® ROLLER AND BLANKET WASH

VWM Wash High performance at an economical price. Water miscible, removes both solvent soluble and water soluble glazes in one step.

V-VWM	1 gal.	\$18.40
V-VWM.5	5 gal.	\$87.00

PRONTO The original, deep-cleaning small press wash. Thorough glaze removal and low odor comfort.

V-PRONTO	1 gal.	\$18.40 H
V-PRONTO.5	5 gal.	\$83.75 H

H + HAZMAT CHARGES

CALIFORNIA WASH A non-photo-chemically reactive water miscible wash. Effective cleaner for all press sizes. Low aromatic content, low odor.

V-CALIFORNIA	1 gal.	\$20.05
V-CALIFORNIA.5	5 gal.	\$91.50

DUPLICATOR WASH A fast drying, deep-cleaning professional wash specifically engineered for small presses. Controlled evaporation rate, high flash point, mild odor. Ideal for inplant and quick print operations.

V-DUPLICATOR.5	5 gal.	\$99.50
-----------------------	--------	---------

BLUE RIBBON WASH Economy Wash 5gal \$54.50

V-120 WASH Water miscible blanket and roller wash. Contains hydro-flex which extends roller and blanket life. Will not rub rollers of their natural oils, keeping them in "like new" condition.

----------------	--------	---------

V-5GAL PUMP 5 gal. Pail Pump \$40.45

VARN® DEGLAZERS and REJUVENATORS are the key products products in Varn's proven press maintenance systems, and are used in combination with a Varn water miscible wash.

VARN® TAKE-IT-OFF An innovative paste deglazer that removes ink and gum glazes. Contains mild, non-abrasive particulate. Leaves no residue. When used with a Varn water miscible wash, forms a roller maintenance system of the highest order.

V-TAKE-IT-OFF	1 lb. Tub	\$10.95
----------------------	-----------	---------

VARN® REVITOL A concentrated liquid detergent and rejuvenator to remove glaze and restores natural tack, revitalize and rejuvenate rollers and blankets. Very low VOC. Deep cleans to extend blanket and roller life.

V-REVITOL.1	1 gal.	\$23.05
--------------------	--------	---------

VARN® SUPER RUBBER REJUVENATOR Cleans and deglazes rubber fast, while restoring life and print ability to even the most glaze-blocked blankets and rollers. Leaves blankets and rollers velvety smooth and ink receptive, and adds thousands of quality impressions to blankets. This excellent rejuvenator will pay for itself many times over in increased productivity.

V-SUPER RUBBER

REJ.1	1 gal.	\$30.00

18" PERFORATING & SCORING MACHINE

By **COUNT MACHINERY COMPANY**

Affordable • Effortless • Reliable

PerfMaster

Achieve short to mid volume Perforating & Scoring with ease.

FEATURES:

- Desk top space saver model
- 19" wide feed capacity
- Self-fanning automatic bottom friction feed
- Set-up and operation is a breeze
- Perf/Score/Slit Depth control setting
- Quickly change from perforating to scoring
- Simple to use one button operation speed control
- Mount up to maximum of (4) Perf or Score assemblies
- Micro-lateral adjustments for easy set-up of perforating & scoring
- Feeds single sheets, coated stock or multi-part open or glued edges
- Speed: Up to 26,000 sheets per hour
- Sheet size: 4" x 4" to 19" x 22"
- Weight: - Net: 66 lbs. - Gross: 85 lbs.
- Overall dimensions: 43" L x 27" W x 18"
- Electrical: Standard 110v 50/60 Hz. Also avail: 220v 50/60 Hz
- Warranty: 5 year on mechanical (except on wearing parts) & 1 year on electrical

Equipped standard with: (1) each perforating & scoring assemblies

Perforating blade styles available:

MicroPerf • 5-1: (18 teeth) • 9-1 (33 teeth) • 12-1: (45 teeth)

SPINKS INK / INK SCALES / CORNER ROUNDERS

SPINKS INK The small press specialists offers a variety of inks to suit your needs:

ACRYLIC The most versatile ink for your press. Our unique Acrylic formulation delivers non-skinning qualities of a rubber base with the gloss and drying qualities of an oil base ink. From coated to uncoated stock, solids coverage to fine screens, metal to paper plates, our Acrylic formula provides for trouble-free printing day in and day out.

QUICKSET OIL BASE A premium work-n-turn oil base ink. This fast drying world class ink offers optimum gloss in a smooth running, low tack formulation. Quickset is available in all Pantone® colors as well as four color process. Quickset inks are also compatible with the current generation of laser imprinting equipment provided they are given 48-72 hours to dry prior to imprinting.

PERMABIND inks are formulated for non-porous stocks or hard to dry surfaces. It is also recommended to resist the heat of older laser copiers that generate extreme temperatures, i.e. IBM3800. Various applications of this product may require technical advise. Spinks has a full range of ink reducers, driers, overprint and binding varnishes available.

Additional blades and dies may be purchased separately.

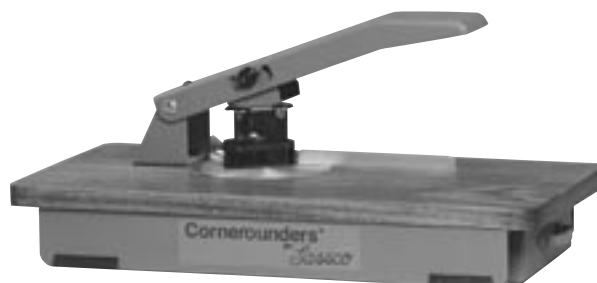

LASSCO CORNERROUNDS®

Desktop Heavy Duty Model CR 50B

Cornerround® designed with smooth rigid cutting action for hard-to-do jobs. Accepts full range of interchangeable cutting units (1/16" to 1 1/2" radii) One standard cutting unit (1/8", 1/4", 3/8", or 1/2") included.

LAS-CR-50B \$290.00 Table Top Model

LAS-CR-50 \$685.00 Floor Model

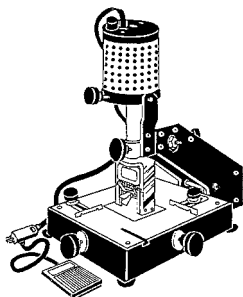

NUMBER-RITE AND NUMBER-ALL features:

- 6 wheel numbering head
- Number from 1-999,999
- Sinkable zeros: forward action
- Repeat numbering: electrically operated by foot pedal

NUMBER-RITE ELECTRIC NUMBERING MACHINE

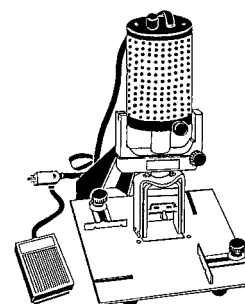

Easily goes through 8-part NCR. Sharp clean numbers; adjustable hit crash number through 8-part carbonless; moveable paper guides for simple registration. Head can be tilted forward or backward to make sure you get the best impression. Number consecutive, duplicate, triplicate, 4X, 6X, 12X or repeat. Change from Gothic to Roman in seconds. Purchase includes 1 Gothic Head w/ink pad clip, 1 bottle of ink and 3 ink pads.

W-100-3 Number-Rite	\$995.00	W-100-G Strike Pad	\$ 5.50
W-100-A Gothic Head	\$155.00	W-100-B Roman Head	\$155.00
W-100-C Black Ink	\$ 5.50	W-100-D Red Ink	\$ 5.50

NUMBER-ALL ELECTRIC NUMBERING MACHINE

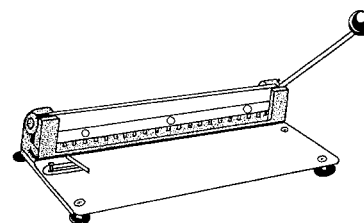

Goes through 4-part NCR Great for small jobs. Sharp clean numbers. Number tickets, booklets, NCR, etc. Simple registration by moveable paper guides. Consecutive, duplicate, triplicate, 4X, 6X, 12X or repeat action. Purchase includes 1 Gothic Head with ink pad clip, 1 bottle of ink and 3 ink pads.

W-200	Number-All	\$885.00
W-200-A	GothicHead	\$155.00
W-200-G	StrikePad	\$5.50

PUNCHMASTER

Punches any size plate. Put your paper, polyester and metal plates on the plate cylinder straight every time. No need to stop the press and straighten the plate.

The Punchmaster uses pins made of E-52100 hi-carbon steel, heat treated to tool steel hardness. Has adjustment for any width plate up to 12" wide, with open ended adjustable plate guide. Punch 25 holes 11/64" diameter, spaced 1/2" center to center, 3/16" from top.

P-30001 **\$379.00**

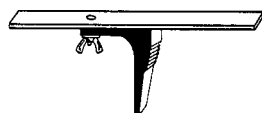

Numbering Supply Kit all the supplies you need in one kit: 1 dozen ink pads, 3 bottles of ink (black, red, blue), 2 ink pad clips, 1 plastic stylus (to set numbers), 2 green strike pads to replace worn pads.

W-100-H for NUMBER-Rite	\$49.00
W-200-H for NUMBER-ALL	\$49.00

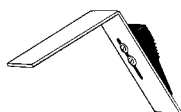

ENVELOPE BACKSTOPS

for ABDick and Multilith Durable all metal construction. No installation needed, just unclamp the regular backstop and install the Wizer Backstop in its' place and run envelopes at top speed without misfeeds.

W-125 for AB Dick 350,360,375,9800	W-126 for Multilith also fits Hamada 500, 600, 700

Suspension Feeder

Envelope Feeder

Compatible with all small parts to medium landscape / portrait format
printing presses regardless of feeding systems
(Stream Feeder / Sheet Feeder)

Envelope Feeder

- No electrical or mechanical connection to the press is needed. Timing and speed automatically match the press.
- Feeds envelopes continuously
- From start to finish, the stock remains FLAT.
- Virtually maintenance free
- Every part is warranted for 8 years
- Feeds all common envelopes, including catalog and booklets. 3 1/2"x5 1/2" up to 10"x13"
- Includes a three foot free standing delivery conveyor*

Standard Features

- Fiber Optic Sensing
- Locking Wheels
- Dial In Length Setting
- Adjusting Scales
- Hydraulic Height Setting
- Jogging Shelf
- Warranted 8 Years
- Delivery Conveyor

*Options

- Five Foot Variable Speed Delivery Conveyor

**MADE
IN
THE
USA**

Delivery Conveyor

For Stream / Sheet Fed Presses

- Continuously prints envelopes. Timing and speed automatically match the press. No need to stop and reload press feeder every few hundred envelopes.
- Continuous feeding maintains quality and reduces waste.
- Installs quickly without electrical or mechanical connection to the press.
- Automatically adjusts itself to all printing speeds.
- Designed for run lengths of 1000 and above.
- Feeds most business size envelopes from 3 1/2x5 1/2 up to 10x13
- A delivery conveyor provides efficient unloading and reboxing of envelopes.
- All parts on both envelope feeder and delivery conveyor are warranted for 8 years.
- Spare requirements: Approximately 4' in front and behind press.

Specifications:

Stock Size: Minimum: 3 1/2" x 5 1/2" • Maximum: 10" x 13"

 Ryobi and Toko Press Models.

Swing-Away and T-51 are registered Trademarks of Townsend Industries, Inc.
 Stationary heads are also available.

Two-color printing has never had it so good...so precise...so quick...so easy, and Townsend made it all happen! The Townsend Swing-Away™ T-51® is especially designed to give you engineering advantages unavailable before and yet still offers the same Quality - Reliability - Productivity expected in T-51 performance.

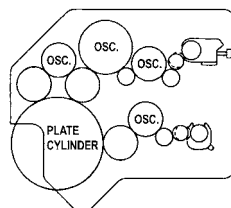

Designed for operational ease and convenience

The T-51 is equipped with a single lever control with controls the ink, water and print positions in one easy move of the control lever.

Removing the T-51 and returning it precisely back into place is simple and easy thanks to the T-51 Swing-Away. The T-51 Swing-Away is equipped with a rotating arm which allows the entire unit to be either swung away from the duplicator or back into its normal operating position in about one minute. The T-51 Swing-Away allows unrestricted access when running single color work. It also increases the ease of serviceability of both units.

Performance Inking and Moisture Systems

Illustrated is the T-51 fourteen roller ink/moisture system. Designed for quality printing, the system features different diameter form rollers and oscillators that significantly control ink recovery and coverage.

The T-51 moisture system is supplied with a molleton system or the unique Townsend "Aqua-Flow" system. The "Aqua-Flow" system is a segregated dampening unit which allows the form, oscillator, transfer, and ductor rolls to carry both ink and water. This provides a true form roll system. Two forms carry only ink while one carries both ink and water. Both the molleton and "Aqua-Flow" systems offer equal T-51 quality and performance.

An infinite moisture control and water ductor lock-out are featured on the T-51. The water fountain roller can be set to rotate at an infinite number of settings to allow a finer control of moisture distribution to the plate. For clean-up or when the T-51 is idling, the water ductor can be locked out. Both features offer the ultimate in T-51 moisture control.

Register

The T-51 has ultra sensitive adjustments for easy plate alignment. A micro adjustment allows the plate to be twisted without removing it from the cylinder. A micro horizontal adjustment and micro vertical adjustment provide precise dot-for-dot register between the two colors. These are all valuable time-savers in setting up two-color work.

Increased Production and Profits

Precise register between the two colors is guaranteed on every sheet you print. And not only will you double your two-color production, but washup, waste and storage will be sharply reduced or eliminated. This means hundreds of dollars to you each month. Putting the Townsend T-51 to work for you today will be one of the most profitable decisions you will ever make. Ask your Townsend dealer for a demonstration
